## U.S. Acts To Cite Mine Chief For Contempt

### Milder Weather In Sight; Winds Up To 25 m.p.h.

With the forecast of widely-scattered snow flurries today and overnight from William Burton of the Gonzales Hill Observatory came word of milder weather in this area.

Also in the forecast were "southeast winds reaching a velocity of 25 miles per hour and decreasing to 15 miles an hour from a northerly direction."

The glass dropped to its lowest point of the cold snap between 9 and 12 Wednesday morning, the reading being 24, or eight degrees of frost. During the night the lowest recording was 28.

Minimum temperature predicted for tonight is 30, and the glass is expected to rise to a maximum of 38 tomorrow.

At 10.40 this morning the temperature was just over the freezing point, 32.5 degrees.

Yesterday three-fourths of an inch of snow fell in Greater Victoria.

#### SURFACES SANDED

Treacherous road conditions all over the island Wednesday resulted in the B.C. Public Works Department and private firms maintenance crews doing sanding work on slippery surfaces.

While there was a general easing-up on Vancouver Island, the mid-November cold wave continued to grip the Pacific Northwest today from Medford, Oregon, well into British Columbia as the weather bureau gave rise to slight hopes of relief, with the prediction that occasional snow flurries would change to "occasional" rain Friday.

#### DEATHS IN WASHINGTON

SEATTLE (AP)—Washington state's storm-caused death toll stood at five today. Mrs. Irene Davis Buell, 25, wed at Helena, Mont., five days before, was fatally injured when her car ran off the snowy highway at Eltopia, en route to Pasco, and an elderly man, identified as Hans Rasmussen, 35, was found dead beside his boat at Seattle wharf. Police expressed belief

### Sub-Zero Cold Grips North B.C.

By Canadian Press

As Alberta and the rest of the prairies shivered in winter's first real blast—it was 4 below at Penhold, Alta.—the B.C. Kootenays town of Cranbrook near the snow-choked Crow's Nest Pass reported a "desperate" coal shortage today. Retailers were flooded with orders and had no coal to fill them. None was immediately in prospect as snowplows struggled to clear roads of a snowfall reaching as much as three feet.

A possible coal shortage also loomed in southern Alberta.

A snowstorm which struck B.C. during the week-end left Prince Rupert and Prince George cut off from regular communications and put heavy pressure on gas systems in Victoria and Vancouver, the only coast cities without a large amount of snow. In the B.C. capital gas was cut off to some parts of the city for a time Wednesday.

As storm conditions delayed trains, stalled private cars and canceled plane flights south of the border, an Indian family of four missing since Saturday in a small gas-boat were sought by B.C. police in the Gulf of Georgia.

### Gales In Britain; Loss From Floods

LONDON (CP)—Gale warnings ringed Britain today, heavy floods were reported in various sections of the country and London had its first winter sleet.

The Thames valley was threatened with floods if the rains of last night and today continue.

The little market town of Bungay in Suffolk with a population of 3,098 was almost cut off and is likely to be isolated by tonight if the downpour persists. Threatened by the River Trent, the people in some suburbs of Nottingham were warned by loud-speaker trucks to lay in a supply of candles and food in case floods drove them to the upper stories of their homes.

A cloudburst which hit London during the early morning rush hour forced traffic to a halt in several districts. The Thames, swollen by torrential rains dur-

ing the night, now is nine inches above normal. At several points between Nuneham, Courtenay and Shillingford on the Berkshire side of the river near Abingdon, the river is over its banks.

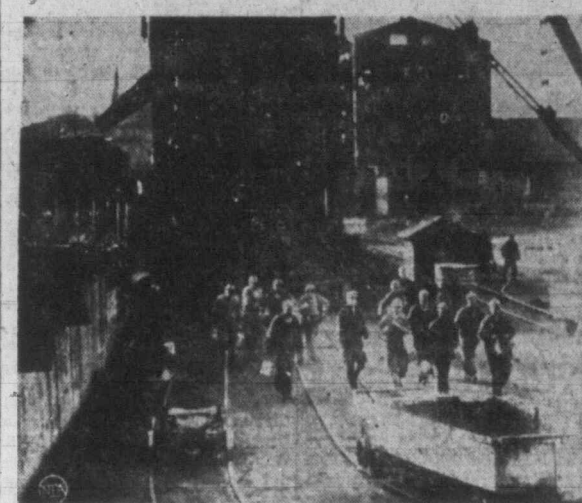

The Air Ministry said the gale came from the Atlantic and moved slowly north over Ireland during the night.

The Air Ministry said the gale came from the Atlantic and moved slowly north over Ireland during the night.

### Vancouver Expects Break In Weather

VANCOUVER (CP)—A break is expected during the next 12 hours in the cold snap that has gripped British Columbia for four days. However, residents in the southern part of the province may prepare to start shoveling snow tonight.

### Miners Walk Out Of U.S. Coal Pits

Picture shows group of United Mine Workers' members quitting their jobs at the Chicago, Wilmington and Franklin's New Orient mine near West Frankfort, Ill., reputed to be the largest shaft mine in the world, normally employing more than 4,300. These men "jumped the gun" on John L. Lewis' deadline last midnight.

### Bevin Insists New Reports To U.N. Cover All Troops

LAKE SUCCESS, N.Y. (CP)—Because of Britain's leadership in disarmament between the two Great Wars "my country was within inches of being wiped out by Hitler," Foreign Secretary Bevin told the United Nations' 54-member Political Committee today.

"What would have been the fate of the world if Britain had failed in 1940?" he asked. "I am afraid the resources thus set free for Hitler would have meant his triumph."

Mr. Bevin was giving Britain's reaction to the resolution presented by Russia Wednesday calling for disclosure by the major powers of the forces and bases they maintain outside their own boundaries.

Mr. Bevin said he could not accept the Russian proposal for reports to the United Nations on disposition of troops on foreign soil unless it was amended to cover forces on domestic fronts and the whole broad question of disarmament.

#### POLITICAL EFFECT?

Mr. Bevin said the Russian Foreign Minister, V. M. Molotov, had claimed this disclosure would have an important political effect.

"I ask, is this being done for political effect or for disarmament?" said Mr. Bevin.

He recalled that earlier the

Russians had claimed the presence of Allied troops abroad was a danger to peace, but had not repeated that Wednesday.

Nevertheless he had said that revelation of the information would have "political significance," yet claimed he was seeking the information for the benefit of the military committee working out plans for a U.N. enforcement agency.

Earlier during today's session China had joined with the United States in demanding that the figure on troop dispositions include domestic armed forces.

France qualified its approval with a suggestion that the U.N. should fix the exact needs for troops stationed in former enemy states such as Germany. Alexandre Parodi, the French delegate, said this could be done by the Security Council or military staff committee.

V. K. Wellington Koo, Chinese delegate, reiterated that United States troops were in his country at the specific request of his government. He said they were "not interfering in internal affairs and gave cause for no friction or misunderstanding." The U.S. forces would be withdrawn in due course.

Dr. Koo spoke in the presence of Foreign Minister Molotov of Russia who Wednesday indicated that the presence of U.S. troops in China was the cause of anxiety.

As they came up from underground at the Pittsburgh Coal Co. mine in Library, Pa., James Kelly (left) and Alec Hammond paused to read a notice telling of the U.S. government's court action forbidding John L. Lewis to call them out of work.

### October Coal Output Of British Columbia Up From Last Year

British Columbia coal production during October of this year almost doubled coal output for October, 1945, month of the "meat strike" among Western Canadian coal miners.

Monthly report of the provincial mines department today showed October production at 112,359 long tons, against 67,869 long tons during October, 1945. Generally monthly totals this year have fallen behind output totals for 1945.

Vancouver Island coal mines produced 45,192 tons in October, compared with 28,240 tons in October, 1945. Main island producers with 1945 production in brackets after the 1946 totals, were Comox Colliery 20,056 tons (13,703), No. 10 mine, South Wellington, 19,405 tons (11,146), and White Rapids Mine, 4,438 tons (2,149).

Production in the Nicola-Princeton district was down last month to 3,119 tons from 4,373 tons in October, 1945, while the northern district's production gained slightly from 1,076 tons in October, 1945, to 1,204 tons last month.

### LATEST Canada To Restrict Coal Deliveries

OTTAWA (CP)—Reconstruction Minister Howe announced today that deliveries of bituminous coal in the Great Lakes and St. Lawrence River areas will be restricted tomorrow "in view of the uncertainties which have been created by strikes in the United States bituminous coal mines."

### Truman Submerges

KEY WEST, Fla. (AP)—President Truman today went 440 feet down into the Atlantic in a captured German submarine while his cabinet carried on his fight with John L. Lewis over the closing of the United States' soft coal mines. Members of his party said Mr. Truman had not heard from Washington, where a petition pressing contempt proceedings against the chief of the United Mine Workers was prepared.

### Seek Heirs In B.C.

VANCOUVER (CP)—A \$30,000 legacy is waiting in Chicago for two brothers, Moses and Hayam Rosenbaum, who may be somewhere in British Columbia. They came to this continent many years ago from Lithuania and later came to the Pacific coast. A Chicago attorney has started a B.C. search for them.

### Alberta Has Deficit

EDMONTON (CP)—With increased expenditures on road building and first payments on debt refunding using up cash surpluses, the Alberta government for the first six months of the fiscal year has ended up with an over-all deficit of \$2,793,800.

During the corresponding period last year, the province had an over-all cash surplus of \$3,410,507.

### Treasury Board Rules On Wages

OTTAWA (CP)—Final approval of wage increases for workers at the Esquimalt, B.C., Naval Dockyard rests with the Treasury Board, it was learned today. A decision is expected from the board shortly.

Last night the Victoria branch of the National Union of Machinists (C.C.L.) wired Ottawa complaining that dockyard workers had not received wage increases granted in other British Columbia shipyards.

Some time ago the National War Labor Board, acting on an application by the navy, approved increases for the workers but so far final approval has not been given by the Treasury Board.

## Lewis Continues Silent As Draft Ready For Court

WASHINGTON (AP)—The United States government moved today to cite John L. Lewis for contempt of court as a general walkout of United Mine Workers was staged in the soft coal mines.

Reports from the field indicated some anthracite miners were joining the 400,000 bituminous diggers in a stoppage that could eventually touch all industry. Work suspension came in the face of government pleas to keep the mines going.

Mr. Lewis, who disregarded a court order to restore the effectiveness of the miners' contract with the government, continued silent as government attorneys finished drafting contempt citation papers against him.

The papers were to have been presented at noon to Federal District Judge T. Alan Goldsborough, but midday came and went and indications were that there would be some delay in the appearance of government lawyers in court.

Aides of Judge Goldsborough said he would be in his chambers later in the afternoon.

#### Orders Given To Cushion Blow

Orders went out to cushion the impact of a prospective coal famine.

Philip B. Fleming, Federal Works Administrator, ordered a return to wartime heating and lighting strictures in all federal buildings throughout the country which depend on coal.

Mr. Fleming said he would seek to reduce temperatures to the wartime level of 68 degrees. The order affects approximately 300 buildings in Washington alone.

The Civilian Production Administration prepared a directive designed to help ration artificial gas, produced from coal. The same agency pondered an electricity conservation order.

Judge Goldsborough may decide whether to call on the United Mine Workers' chief to show cause why he should not be fined or jailed.

Judge Goldsborough issued an order last Monday directing Lewis to recall his notice to the government ending the miners' contract as of Wednesday midnight.

Lewis did not do so.

Today reports indicated that virtually all of his 400,000 soft coal miners were idle and production of the vitally needed fuel was grinding to a halt.

Assistant Attorney General John Sonnett awaited only the word from Attorney-General Tom Clark before presenting the contempt citation before Judge Goldsborough.

The petition, it was learned, was drawn up by Clark, Sonnett, and other government lawyers. The finishing touches were applied at a staff conference this morning.

#### Seek Punishment For Local Leaders

In all-out action, the government was reported also preparing to seek punishment for any local union leaders or others who are found to be encouraging a strike.

A high authority said this was the government's operating plan under President Truman's instructions to "fight this one out to the finish."

Before the day's end, Justice Department officials would go before U.S. District Judge Golds-

borough and ask for a contempt citation against Lewis. If Lewis should be found in contempt for non-compliance with a court order, he could be fined or sent to jail—to stay until he purged himself of contempt, if the judge so ordered.

In the mounting crisis, U.S. troops stood ready to move into the coal fields to prevent violence—but not to mine coal. Unit commanders were placed on the alert.

Government officials also kept an anxious ear to the ground for any manifestations of a general upheaval by labor. The A.F.L., with its 7,150,000 union members and C.I.O. with its 6,000,000 had already thrown their moral support behind the U.M.W. chief.

By resolution at its Atlantic City convention, the C.I.O. termed Judge Goldsborough's order an attempt to impose "economic slavery" on the miners.

A.F.L. President William Green, in a statement, declared the order "represents force, violence and the threat of punishment."

Silent to the last, Lewis permitted the 12.01 a.m. deadline to pass without a word and with out revoking his notice that the government-union pact covering 3,300 soft coal mines and 400,000 miners was "void" at that hour.

### Just Another Day For Turbulent Lewis

The U.M.W. leader went home to bed at his suburban Alexandria, Va., residence as if it were the end of just another routine day.

Even before the zero hour, upward of half the miners had walked off their jobs in 13 states.

Presaging an historic showdown, President Truman sent word from his vacation headquarters at Key West, Fla., instructing the Justice Department to press for contempt charges against Lewis.

In the wake of the strike, widespread repercussions affecting millions of U.S. citizens appeared inevitable. Among others:

An embargo on all freight shipments by rail, except for essential commodities such as food and medicine, was reported imminent.

Brownouts and electricity rationing were forecast for all states east of the Mississippi.

Steel mills with their tens of thousands of workers prepared emergency steps. An industry spokesman said most of the mills would close by Dec. 1 if coal supplies are cut off.

One government official said the administration is counting heavily on public opinion to end the strike, and declared that time is running out on Lewis.

### Birtelsen Before Assize Court On Charge Of Attempted Murder

Seventeen-year-old John Birtelsen went on trial this morning in Assize Court on a charge of attempting to murder Constable Stanley Cornish, Victoria city policeman, on July 20.

Witnesses to be called by Crown Counsel R. A. B. Wootton during the trial are J. F. C. B. Vance, Vancouver; Dr. W. A. McElmoyle, Const. Cornish, E. Mallek, Const. J. D. Blackstock, H. T. Zola, Detective Louis Callon, James Blackstock, J. D. Kelly, B.C. Police Const. F. E. Grimshaw, Beverly Mitcham, Gifford Aastrom and Const. Stanley T. Holmes.

J. G. Ruttan is acting for the defense.

Birtelsen, wearing a brown leather jacket and an open-necked white shirt, stood nervously in the prisoner's dock as the charge was read.

His counsel entered a plea of not guilty.

Following selection of the jury, the court was adjourned to 2 this afternoon.

Jurymen selected were D. D. Knox, foreman; J. Berwick, L. O. Ambrose, C. Elliott, L. E. Adams, F. M. Morgan, W. Jackson, H. A. Goward Jr., G. Allan, F. Jefford, P. McQuade and A. B. Crump.

The King has rewarded Mrs. Odette Sanson, heroine of the French underground and shown here with her three children, with the George Cross in recognition of her bravery and devotion to the Allied cause during German occupation of her country. Although tortured with her fingernails pulled and her back branded, Mrs. Sanson refused to divulge secrets of the underground which would have jeopardized lives.

## U.S. Congressman Embarrassed By Ad. On Arab-Jew State

LONDON (CP) — Representative Joseph Clark Baldwin (Rep. N.Y.) said today an advertisement of the Political Action Committee for Palestine Inc. which was "provocative to the British" had appeared in the New York Post Tuesday because instructions to delete certain references arrived in New York too late.

Mr. Baldwin, administrative chairman of the committee, is here in an attempt to push a plan for a joint Arab-Jewish state in Palestine.

A provocative passage, he said, referred to His Majesty's Government as having "dipped the Crown in Jewish blood and polished it with Arab oil." Mr. Baldwin told a press conference he had cabled and telephoned the committee cautioning against advertisements "provocative to the British."

The Congressman said such advertising made his position here embarrassing.

Mr. Baldwin planned to see Herbert Morrison, Lord President of the Council, tomorrow and then go to Palestine for conferences with Jewish and Arab leaders before submitting a report to the Palestine conference reopening in London Dec. 16.

The advertisement in the New York newspaper appeared under the heading "God Save the King!" in the form of a letter from Representative Baldwin in London addressed to "Fellow Americans."

The letter quoted Mr. Baldwin saying:

"I came . . . (to London) to form a bloc among the more understanding and patriotic members of Parliament to offset the obstinate, blind and wilful policy which stands in the way of justice and of peace."

"England can no longer afford to preach justice and practice injustice, to proclaim democracy and act tyrannically, to raise the white flag of peace in one part of the world and the black flag of piracy in another part . . . Palestine is not their property . . . Palestine belongs to the Jews by every legal and moral right."

"God Save the King from His Government . . . His Government has dipped the Crown in Jewish blood and polished it with Arab oil . . ."

The advertisement closed with a plea for contributions to the Political Action Committee for Palestine Inc., an organization of vigorous and militant Christians and Jews.

## Gives First Address

LONDON (CP) — Norman Robertson, Canadian High Commissioner in the United Kingdom, said Wednesday night Canada and Great Britain face essentially the same problems and gave assurance that "Canada is determined to take her just part in meeting the responsibilities which the maintenance of peace and security requires of all of us."

It was his first public appearance since he succeeded Rt. Hon. Vincent Massey as High Commissioner. He spoke before the Canada Club, founded in 1810 by fur traders of the old Northwest Company and now the oldest dining club in London and perhaps in the world.

## Weather

Weather today and tomorrow valid until midnight Nov. 22.

Vancouver and Vicinity — Overcast today and Friday. Snow flurries changing to intermittent snow late evening and Friday morning. Thereafter snow showers higher levels and rain showers low levels. Light winds. Milder.

West Coast Vancouver Island — Overcast today and Friday. Snow flurries becoming intermittent rain and snow mixed to night and Friday morning. Southeast winds. Milder Friday.

Lower Fraser Valley — Overcast today and Friday. Snow flurries becoming intermittent snow tonight and Friday morning. Northeasterly winds.

Georgia Strait — Overcast with snow flurries today except for intermittent snow southern portion late evening. Intermittent snow Friday morning.

IT'S WORLD'S LARGEST AQUAMARINE — The crude-looking stone being held by Theresa Molitinho, left, of Brazil's U.N. delegation, and Mrs. Edward J. Danziger of Rio de Janeiro is reported to be the world's largest aquamarine, popular semi-precious gem. Shown on its recent arrival at the Brazilian Trade Bureau in New York City, the 125,000-carat stone weighs 56 pounds and is insured for \$500,000.

## B.C. Produces More Turkeys; Must Still Ship From Prairies

OTTAWA (CP) — More turkeys are destined to make the supreme sacrifice for the adornment of Canada's Christmas tables this year than at last Yuletide. Prices Board officials said today there also will be plenty of chicken and goose available.

Heaping helpings of cranberry sauce will be the order of the day, for Canada this year grew the second largest crop of cranberries in her history.

Throughout Canada this year farmers have raised more turkeys. One dealer said turkeys sold throughout Ontario will all be "home-raised" birds, but Prices Board officials say many will have to be imported from the prairies.

Officials added there has been a normal production in both Saskatchewan and Manitoba, upon which most of the other provinces depend for a large part of their supply.

## Food Supplies Roll To Alaska Relieving Famine From Strike

EDMONTON (CP) — Food supplies were rolling over the Alaska Highway today towards Fairbanks and hungry Alaskans facing a serious shortage created by the United States marine strike that cut off their winter supplies.

Some poultry supplies, flour, fresh fruit and vegetables have already reached Fairbanks and a further supply of flour was expected to leave Dawson Creek today. Arrangements had also been completed to freight more than 17 tons of beef from here late today.

E. W. Patton, Fairbanks businessman who has been in Edmonton for two weeks negotiating with federal authorities and Edmonton merchants for the supplies, confirmed an announcement made at Ottawa Wednesday night by Trade Minister MacKinnon that Canadian eggs, poultry, fresh fruit and vegetables had been sent to Alaska.

"The response of the Canadian people has been very generous and we don't know how to thank Canadian officials enough for the way they have helped us," Mr. Patton said. "The response came at a time when it meant a great deal to Alaska."

## No Early Decision On War's Formal End

OTTAWA (CP) — Setting a date for the end of the war in Canada is still under consideration by the federal government, without indications of an early decision, a source close to the cabinet said.

So far as the Dominion is concerned, the Second Great War is still on, as it affects Canada's wartime legislation. That is, no date has been set for the termination of the great bulk of emergency enactments brought down during the conflict.

SECRET'S OUT — That Rear Admiral Richard E. Byrd, above, played a highly secret and important role in World War II was disclosed recently when Admiral Chester W. Nimitz presented him with his fourth citation, a gold star in lieu of a second Legion of Merit. The famous polar hero disappeared from public notice in 1941 to engage in secret work in both Atlantic and Pacific theatres.

## Crown To Find Out Why Verdict Killed

WINDSOR, Ont. (CP) — The Crown will seek a full explanation of the Ontario Court of Appeal's decision Wednesday which quashed the conviction of 18-year-old Ronald George Sears of Windsor, who had been sentenced to be hanged Dec. 3 for the slasher-murder of Sgt. Hugh Blackwood Price on Aug. 17, 1945. Crown Attorney E. C. Awrey said he did not know where he stood since his main evidence had been inadmissible.

The Appellate Division handed down a decision Wednesday in the appeal which said statements allegedly made by Sears to police could not be used in evidence against him. These statements of improper advances Sgt. Price had made to Sears and how the youth left Price's body lying with a dozen wounds in it.

A second charge of murder and three charges of attempted murder are still to be faced by the Windsor youth, who took the news of the decision calmly as he sat in the death cell at Essex County Jail. Whether these charges will be pressed depends upon explanation of the judgment, Mr. Awrey said.

The Crown Attorney intimated that since Joseph Gelesner, who survived a stabbing last July 5, was the only man to point Sears out in a police line-up, all other charges may be laid aside and the youth brought to trial for the attempted murder of Gelesner at the January Assizes.

## Jap Extremists Ordered Ousted

TOKYO (AP) — The Japanese government today ordered ultra-nationalistic industrialists and newspaper officials purged from their offices. Thousands were expected to be removed, with widespread repercussions.

Today's action had been anticipated two weeks ago when 250,000 to 400,000 ultra-nationalists were ordered ousted from provincial government offices.

Employees of such Tokyo newspapers as Asahi and Mainichi, Japan's two most powerful journals, forced out the top wartime executives in democratization movement shortly after the occupation began. Similarly, many key economic figures were caught by previous political housecleanings or were forced into retirement by reorganization of the Zaibatsu (family monopolies).

Today's action—like all occupation purges, inspired by Gen. MacArthur—was the first official action directed specifically against industrialists or newspaper officials.

## Political Activity Urged By C.C.L. Head

WINNIPEG (CP) — Organized labor should not be neutral in the political field, A. R. Mosher, president of the Canadian Congress of Labor and the Canadian Brotherhood of Railway Employees, told a meeting of the Winnipeg Labor Council Wednesday night.

"I do not agree with our opponents," he said, "that you should be neutral in the political field, that your job is only to produce wealth in the industrial field, and let the other fellow make laws under which you work and live, and that the other fellow has all the ability to make and administer the laws."

He said organized labor is one of the greatest forces in the land for social security, abolition of involuntary poverty and for peace, but it must be united both industrially and politically.

"I am hoping that within the next 12 months we will be able to accomplish some co-operation between the two labor congresses and be able to act as one unit, representing the economic power of workers in Canada."

## Backs I.T.U. Strikers

LETHBRIDGE, Alta. (CP) — The 26th convention of the Alberta Federation of Labor Wednesday night endorsed a resolution of support for the International Typographical Union in its dispute with the Southern newspaper group and condemning actions of members of the Canadian National Printing Trades Union employed in the composing room of the Calgary Herald.

## Stowaway Persistent

NEW YORK (AP) — Tony Ferente, 40-year-old bricklayer, is a man of determination. At 3 a.m. Wednesday, police said, he tried to stow away in the liner Vulcania. He failed, but tried again six hours later, and when rebuffed went back at 1 p.m. Tired of escorting him off the pier, police held him until 4 p.m., when the ship sailed for the Mediterranean.

## Stranded Brides Await New Ship

LIVERPOOL, Eng. (CP) — Canadian Military Wives' Bureau officials here and in London today completed arrangements to transport 900 brides and children of Canadian servicemen aboard two special trains for hostel accommodation in London pending the next sailing for Canada.

The brides, stranded aboard the vessel Empire Brent following a collision with the cattle ship Stormont in the early morning mist Wednesday, were scheduled to arrive in London this afternoon.

Bewildered by this sudden turn in events, they thronged the orderly room of the Brent Wednesday night to find out what would happen to them. They

bombarded ship officials with questions, later going to their cabins to pack their belongings for the trip to London.

There were no casualties aboard either ship, but the wives and children must wait in Canadian Wives' Bureau hostels in London until the damage to the Empire Brent's bow is repaired or another ship is available.

## House Horse-Broken

LOS ANGELES (AP) — A divorce was granted Maybelle Alberta Rogers, 20, who told the court that the horse wasn't horse-broken, but the house was horse-broken after her husband had brought the animal in. Under a property agreement, George Arthur Rogers, 29-year-old policeman, gave Mrs. Rogers the offending horse, another horse and \$75 colic dog.

## Russians Are Letting Babies Die By Thousands—Cardinal Spellman Abhors Russian Rule

Francis Cardinal Spellman says:

"Already Russia has drained the spirit and strength from the tortured peoples of Europe and steeped the dregs in desperate despair, as, methodically, she has undermined and made bankrupt allied and conquered countries, transforming them into one vast concentration camp. Hunger harrows the Soviet-subjugated world as Russia refuses to co-operate with America to alleviate starvation and at the same time secretly hoards food for her own soldiers. Wherever the Red Army goes famine follows in its wake, and thousands of babies daily die for no reason except they are the innocent offspring of defeated enemies atoning for the sins of their fathers. Thus do the Soviets prolong chaos, perpetuate hunger, prevent economic recovery and compound the heartaches of all peoples in misery! Their arrogant attitudes and beligerent acts are signs and symbols of a Soviet Peace—which

should shock the conscience of humanity.

Crushed in the clutch of the Communists, Finland, Poland, Rumania, Bulgaria and Yugoslavia have become vassal states, the Baltic peoples robbed of their political independence, and Hungary and Austria rendered economically helpless and destitute. Fifty thousand anti-Communist Ukrainians, Ruthenians and Cosacks who had been lured into the German armies have been forced to return to Russia for "liquidation." In betrayed, disease-ridden Poland whole villages have been wiped out and children die like scraggy, abandoned kittens."

## New Tables Of Tax Deductions In 1947 Forms Mailed By Ottawa

OTTAWA (CP) — Personal income tax tables for 1947 are going out to employers across Canada and distribution should be completed by the end of the week, the Revenue Department announced Wednesday night.

Tax changes announced by Finance Minister Isley last spring are embodied, Mr. Isley forecast in his budget an average 12 to 15 per cent reduction for roughly 1,000,000 taxpayers. The forms are accompanied by copies of tax form "T.D. 1" for use by married employees and single employees with dependents, now simplified to a single sheet.

The tables will prepare employers for deductions at the source beginning Jan. 1, 1947.

### SINGLE SCHEDULE

The new tables bring in a single schedule of graduated rates to replace the present nor-

mal tax, graduated tax and family allowances recovery tables. Present tax credits for married status and dependents are superseded by deductions from income of \$750 for single persons, \$1,500 for married persons, up to \$100 for dependents registerable for the allowances and up to \$300 for other dependents.

Under the new law, too a husband's exemption will be \$750 if his wife also has an income of her own of more than \$750 or, if his wife's income is less than \$750, his exemption will be \$1,500 reduced by the amount of her income in excess of \$250.

Since receipt of family allowances now is considered automatic and included in all tax payment calculations, persons with large families will find their deductions increased but partially covered in the monthly allowances remittances. For tax purposes the allowance is based on an average of \$6 for each child monthly.

For instance, under the rates of this year, a man with three children, earning \$75 monthly, paid \$5 a month income tax. Beginning in January, he will pay \$5.35 monthly but receive \$18 tax-free compensation through the allowance.

One comparison of the manner in which the new tax reduction rate will work out, as compared to the 1946 levels, including family allowances, follows:

A married man with eight children earning \$250 monthly now has a deduction of \$1.15. His family allowance cheque runs an approximately \$40 monthly, of

which the government recovers \$34, leaving him a \$6 net. Under the new rate, he will have a deduction of \$13.25 monthly, but will receive \$40 clear in family allowance.

### PART-TIME RATES

A new table, providing reduced deductions for employees engaged in agriculture or other employment of a casual, seasonal or part-time nature is meant to guard against excessive taxation. Main feature is that for a person employed in such occupations for "not much more than 200 days" of the year, the deductions are calculated to pay the greater part of his income tax;

For single persons whose daily wage rates, including board, are below \$4, there will be no deductions; between \$4.50 and \$5, a tax of 25 cents; between \$5 and \$5.50, tax of 40 cents; between \$5.50 and \$6, tax of 50 cents; between \$6 and \$8, tax of 10 per cent.

## Paddington Seat Retained By Labor

LONDON (Reuter) — Labor candidate Capt. W. J. Field was elected member of Parliament in Wednesday's Paddington North by-election by a majority of 2,917 votes, it was announced today.

Capt. Field polled 13,082 votes, compared with 10,165 for H. L. Turner, Conservative, and 286 for C. Groves, candidate for the Socialist Party of Great Britain.

The by-election was caused by the resignation through ill health of Lt.-Gen. Sir Noel Mason-Macfarlane, Labor. In the last general election, Sir Noel was returned by a majority of 6,545 votes over Brendan Bracken, who now is Conservative member for Bournemouth.

Standings in the House of Commons now are: Labor 391, Conservative 198, Liberal National 13, Liberal 11, others 22, vacant 5. Labor has retained each of 13 Labor seats at stake in by-elections since the party took office 15 months ago.

The Labor government is the first British government since the Conservative administration of 1874 to lose not a single seat during its first year of office.

### Qualicum Fire Hall

QUALICUM BEACH—A contract has been let for construction of a fire hall in the village, and as soon as materials are available, the community will have its own fire-fighting equipment.

## News Of The Island

### New Road Opened In Qualicum Area

QUALICUM BEACH—Municipal workmen have completed a half-mile extension of Crescent Road to join the Island Highway. The new road opened up a considerable amount of residential property at an elevation of 50 feet overlooking Qualicum Beach and provides a fine view of the Gulf of Georgia and surrounding islands.

### Boiler Room Job Let At Nanaimo

NANAIMO — Nanaimo Hospital's two big 66 by 120 H.R.T. boilers purchased two years ago, standing in hospital grounds since that time, are about to find their new home. A contract for construction of new hospital boiler room measuring 32x50 feet of reinforced concrete with block concrete walls and fuel bin capacity of 50 tons, has been awarded to Turley Brothers. Contracts for the electrical and boiler setting sections are to be let shortly, but work on the new boiler room will be started this week.

The boiler room contract price is not stated, but is believed to be around \$13,000.

### Order Water Pipe

PARKSVILLE—Village commissioners have placed an order for the necessary materials for Parksville water supply system with the Pacific Coast Pipe Company. The company cannot promise delivery before next April.

Indications are that sufficient galvanized pipe for connections to private houses will also be available next spring.

### Twin Calves Born

DUNCAN — Twin test-tube calves, first to be born since the Cowichan Agricultural Society's artificial insemination club began, have been born to a Jersey cow near here.

The calves were born on the farm of W. Herman Dibble, Koksilah. It is estimated chances of twin calves being born are one in 500.

### Timber Wolves Seen At Somenos

DUNCAN (CP)—Several large timber wolves are reported to have been seen in the Somenos district near here.

Cold weather is driving deer and wolves from higher levels. Robert Helerson of Somenos reports sighting two wolves on Mount Prevost, less than three miles from here. Another resident, P. W. Buzzard, shot one wolf, wounding it in a hind leg, but the animal escaped after he had trailed it for two miles.

## Nazi Terrorist Ring Believed Smashed

STUTTGART, Germany (AP) — United States army investigators announced Wednesday they have smashed an underground ring of Nazi terrorists and solved the recent Stuttgart bombings by the arrest of 16 former S.S. (Elite Guard) men and Hitler Youth leaders.

Even as the conspirators were said to be "preparing further bomb outrages," agents rounded them up in a series of stealthy arrests starting Tuesday.

"Signed confessions have been obtained from all the principal figures," an announcement said. A 23-year-old former S.S. major named Siegfried Kabus was described officially as the leader of the terrorist band and mastermind behind the series of bombings in Stuttgart, nearby Esslingen and Backnang several weeks ago, with German denazification courts as the principal targets. Kabus was quoted as telling investigators he engineered the bombings to intimidate German courts set up to try Nazi party members and force them to relinquish the job of denazification because "it is a criminal disgrace for Germans to be servile tools of an enemy who conquered us by foul means."

### Thief Suspect Escapes Policeman

PORT ALBERNI — Still at large is a suspected thief who escaped from Constable W. F. D. Allen in a chase along First Avenue Tuesday afternoon which ended when the pursued man disappeared into a thicket on the mill property of Bloedel, Stewart & Welch Co. Ltd.

Constable Allen first found the man at Thomas' poolroom on First Avenue. He recognized the man as answering the description of the person wanted for theft of articles from the freighter Ss. Fort Tremblant, tied up here.

The man was not arrested, but the constable asked the suspect to accompany him for questioning. As the officer seated himself in the car, the man made a break for safety and ran towards the waterfront.

Pursuing the man as far as he could by car, the constable finally chased him on foot, firing three warning shots to halt him. When the man disappeared into the thicket, he discarded a mackinaw which was found to contain stolen articles and a ration book.

In 1771 British courts ruled that as soon as a slave set foot on the British Isles, he became free.

## THE FIGHT IS ON

AS THESE LINES ARE BEING WRITTEN a legal battle is on between the government of the United States and Mr. John L. Lewis. Millions of Americans are wondering what the outcome will be. Well enough they might. No soft coal is being mined. The workers in the anthracite fields may soon be idle. When this prospect is translated into terms of industrial paralysis, homes without fuel during the Christmas season, and the discontinuance of the weekly pay cheque, the economic picture takes on a grimness more easily imagined than described. The administration seems to be counting on public opinion to hasten the end of what is obviously a parlous condition. The average individual, particularly the "white collar" worker who is usually the chief sufferer from these periodic dislocations, is apprehensive lest the consequences of a second coal strike this year produces legislative action calculated to widen the breach between labor and management.

This aspect of the present state of affairs assumes new significance in the light of the fact that already there are threats of a general strike—a prospect which the Republican-dominated Congress may interpret as a challenge to its previously manifested attitude toward some of the more prominent union leaders. It is not within the province of an outsider, of course, to discuss the pros and cons of Mr. Lewis's argument that his soft coal miners may not work without a contract. But it will be recalled that when he signed a document on behalf of the United Mine Workers of America last May 29, the public was told that "this agreement covers for the period of government possession the terms and conditions of employment in respect of all mines in government possession." Since the administration considers the mines to be in its possession, therefore, the legal department naturally points to the fact that Mr. Lewis has permitted a strike to occur for the purpose of altering that agreement. Mr. Walter Lippmann asks what right the miners' chief has to do this and argues:

"Mr. Lewis contends that Section 15 of an earlier agreement—made April 15, 1945—is part of the present contract, and that Section 15 gives him the right to demand a new agreement by giving 10 days' notice that he wants a new agreement, to declare, if he does not get the new agreement he wants within 15 days, that there is no 'contract,' and that five days after there is no 'contract,' his miners may strike in order to compel the United States government to give him a new 'contract.'"

Doubtless the legal minds are wrestling with the foregoing and other considerations involved in the action—or lack of action—taken by Mr. Lewis. Today's dispatch from Washington, incidentally, quotes Mr. William Green, president of the American Federation of Labor, as calling the government's attitude "force, violence, and the threat of punishment." As the head of the great union to which Mr. Lewis and his 400,000 miners returned early this year, it was obvious that the president of the A.F.L. could not remain silent on the issue—regardless of the fact that he is just as mild-mannered as his shaggy-browed colleague is boisterous. This reminds us that in these columns last January 28 we said of the miners' leader's return to the fold:

"It is a matter of controversy . . . as to what extent the return of Mr. Lewis and his miner followers to the A.F.L. will influence the course of labor generally in the United States. Will it make for eventual consolidation and, if so, will the effect of such combined strength narrow or widen the breach which labor and management are finding it so difficult to bridge? On the answer to this question depend the future of industrial peace and economic stability of the whole of this continent."

It is by no means exaggerating the present situation in the United States to repeat that what happens between labor and management on the south of the border is vital to the economic life of Canada. And millions of Americans must be asking themselves why it is not possible to reach some understanding between the two chief controlling forces that would remove the need for government intervention every few months. In the final analysis, moreover, a discerning American populace will see little difference between Moscow's Politburo of 14 "controllers" and an even smaller number of men in the United States who seem able to call their tune at will.

## FIRST THINGS FIRST

SENATOR ROBERT TAFT'S PREDICTION of a \$13,000,000,000 cut in our neighbor's national budget for the fiscal year of 1947, and an additional \$5,000,000,000 reduction in the following year, sounds attractive. His prediction of a 20 per cent tax cut is even more inviting. But especially elucidatory would be the complementary explanation of how it is to be done.

The Republican Party has been talking of a businesslike administration, and perhaps the government at Washington—like administrations elsewhere—might be run in

a more businesslike manner. Says one commentator on this point: "But surely one of the best ways of beginning such a conduct of the government would be to balance the budget. Equally important is the securing of our national defence. When both of those eminently important matters are attended to, it will be time to talk of tax cuts. It would be glaringly poor policy, however, to purchase an easy popularity at the expense of a growing national debt or a weakening of the country's foreign policy and physical safety."

All of which suggests that both the legislative and executive branches on Capitol Hill have their work cut out in the coming days.

## FACING BOTH WAYS

ENTITLED "EACH TO HIS OWN," THE New York Times published a cartoon the other day depicting Mr. Stalin and Mr. Molotov, sitting back to back, each with a "Jack-in-the-Box" contraption with spring released. On the end of the Generalissimo's is a dove with an olive branch inscribed "peace," and on that of the Foreign Commissar's sits a Satanic figure with a Mephistophelian grimace labelled "attacks." In view of the Marshal's recent "interviews" and the actions of his chief spokesman in Paris and New York, the pictorial concept of the Soviet Union's foreign policy in operation seems true to life.

Both Premier Stalin and Foreign Commissar Molotov, of course, are playing on the same national team, and are using the same general signals. But there are times when, without that assurance, one might think that they had agreed only on broad objectives, and beyond that were pursuing their own tactical ways. Such an occasion, for example, was Mr. Molotov's speech to the United Nations General Assembly, which followed by one day Mr. Stalin's answers to a set of questions submitted to him by Mr. Hugh Baillie, president of the United Press. The Russian Prime Minister answered a flat "No" to Mr. Baillie's question as to whether he agreed with United States Secretary of State Byrnes that there is growing tension between the U.S.S.R. and the United States. Next day Mr. Molotov, consistently linking the United States and Great Britain, said that "some people like Churchill believe only in the extreme methods of aggression. These people see in the U.S.S.R. the main obstacle to their dark plans."

Mr. Stalin told Mr. Baillie that he considered the presence of British troops in Greece "unnecessary," and that his attitude toward the presence of American warships in the Mediterranean was "indifferent." Nothing stronger than that, Mr. Molotov said: "We know that naval units and air squadrons suddenly appear where they have never been before to promote diplomatic negotiations. We know that dollar diplomacy is used to promote dollar democracy." Mr. Baillie asked Mr. Stalin if Russia had yet developed an atomic bomb or any similar weapon. Mr. Stalin flatly replied, "No." "One should not forget," Mr. Molotov said, "that atom bombs on one side could be answered by atom bombs on the other side, and maybe even by something else besides." "A strong international control" is needed for atomic power, was the extent of Mr. Stalin's answer to Mr. Baillie on that important subject. He did not reply to a further question as to what sacrifice of sovereignty the Soviet Prime Minister thought necessary in the interest of effective control. Mr. Molotov called the Baruch plan for atomic energy control "egoistic." He contended the plan would mean revision of the U.N. charter, and remarked: "No wonder so much noise is being made about the veto to free the hands of the supporters of the atom bomb."

Though it may be argued with some justification that Mr. Stalin and Mr. Molotov mean the same thing—dependent upon how the reader thinks—the cartoon in the New York Times emphasizes the point which still puzzles every fair-minded student of the passing international scene. But if the men in charge at the Kremlin would use a little more friendly candor and a little less provocative suspicion, hopes for lasting peace would become much brighter.

## SILENCE ABOUT THE 'ALP'

FOR SEVERAL WEEKS, EVER SINCE Primo Carnera appeared in a wrestling ring here, we have been wondering how his money-making passage through the cities and towns of this continent passed with little reference other than unusually restrained notices on sports pages. Now the "Ambling Alp," who scaled the heights of heavyweight boxing when that business was at its absolute nadir, says from Chicago that he intends to make \$50,000 from the circuit before he leaves for his home, his wife and children in Italy. That remark may stir the ire of those who seek to protect home industry in the so-called "grunt and groan" game. Any outcry from that source would be the first shrill voice we have heard of criticism over this employment of a former alien. We would like to think the silence represents the true spirit of Christian charity applied to an erstwhile enemy, or, if that sentiment be too refined, that the obvious limitations of "Da Preem" had inspired a sympathetic silence from those who might raise a nationalistic shout. But, much as we wish to accept such interpretations, we have the hollow feeling that plain apathy is the underlying reason.

## WELL TIMED

SING SING CONVICTS RECENTLY staged a food riot in protest against the monotonous recurrence of beef stew at mealtime. It is fortunate that they waited until our neighbor's meat famine was over before staging the demonstration. If it had occurred earlier, it would have been rather difficult to convince the younger generation that crime does not pay.

## London Cavalcade

By F. B. WALKER  
THE QUASHING OF THE KLUANG court martial verdict on the grounds of "irregularities" has revived the whole issue of military law and practice and military discipline generally. But the Kluang case, though the most spectacular, is not the only court martial arousing controversy in Britain today. More important are the cases of a well known barrister, dismissed from the R.A.F. on conviction of perjury, and that of a solicitor similarly punished for looting.

Both these cases were retried by the Benchers and the Law Society and in each instance these bodies found the men had been convicted wrongfully. Despite this, however, the Air Ministry claims no action can be taken.

THE INJUSTICE of this attitude is obvious. Two conflicting verdicts have been given on identical evidence. One or the other is wrong and yet nothing can be done. There is, furthermore, good reason to trust the verdict of two groups of highly trained legal experts over those of men who, however well intentioned, are not necessarily qualified for the duties they were required to perform.

Now that the war is over it would seem a good time for a thorough investigation into the legal machinery of the Army Act. It is not possible to amend the past but it is both advisable and judicious to prevent a repetition of error. In an age of civilian armies this investigation could profitably include civilian as well as military, veteran as well as serving soldier.

THE PERIOD following the First Great War was one of intense activity in both the Oxford and the Cambridge Unions. These two societies, which have been the training ground of many a British political figure, flourished with the presence in them of large numbers of ex-servicemen. A similar revival is now taking place and the Cambridge Union recently staged a debate which drew more than 1,000 persons and in which the lead for one side was taken by Mr. Herbert Morrison, the Secretary of State, and the other by Capt. Crookshank, the Conservative member of Parliament.

Admiral Lord Louis Mountbatten, Mr. Wilson Harris, member for the University, are other speakers scheduled to appear. Nothing in the present program indicates such controversy as followed the Oxford Union's spectacular "King or Country" resolution of a decade ago. Present debates naturally follow along the great socialist experiment now being tried in Britain. It is interesting to record that Mr. Morrison's resolution, despite the presence of this brilliant speaker, was lost and there are indications that the graduate of today is further to the right than his prewar fellow.

THIS YEAR is the centenary of the first discovery of anaesthesia. The first case of painless surgery in Britain was an operation performed by the famous surgeon, Robert Liston, on Dec. 21, 1846. Ether, to relieve the pains of childbirth, was given early in 1847 and a BBC play recently presented the debate when this experiment was vigorously attacked by representatives of the Scottish clergy.

Both the clergy and Dr. James Young Simpson quoted the Book of Genesis in their arguments. The clergy based their case on: "In sorrow thou shalt bring forth children." Dr. Simpson replied with "And the Lord God caused a deep sleep to fall upon Adam, and he slept: and he took one of his ribs, and closed up the flesh instead thereof."

CANADIAN BOOKS, once a rarity in London book stores, are now, though not plentiful, pleasingly conspicuous. In one store last week, I counted five books, including Bruce Hutchison's "The Unknown Country," Ross Munro's "Gauntlet to Overlord," Capt. Heaps' "Escape from Arnhem" and a book by Prof. Clotkie.

There were one or two others, which escape me at the moment, but the impression was encouraging and an answer to those who do not seem to think Canada capable of literary effort.

## No One-Man Job

THE SOUTHERN NEGRO CONGRESS, meeting in Columbia, S.C., has charged that Secretary of State Byrnes is "unfit to represent the American people in the councils of the United Nations," and has asked that he "begin to establish in his own South, Carolina something of that democracy which he has been recently so loudly preaching to Russia."

The lack of democracy to which the Negro Congress referred, lamentable as it is, cannot however be laid at Mr. Byrnes' door. The Secretary has some 2,000,000 fellow South Carolinians who must share some of the responsibility. He has, moreover, some 140,000,000 fellow Americans who cannot remain entirely indifferent to the deficiency.

Furthermore, the lack of democracy in South Carolina is not as closely bound up with Soviet-American negotiations as the Congress resolution suggests. Mr. Byrnes has not been loudly preaching democracy to Russia for the Russians. He has recently restated his conviction, and the American conviction, that the rights of others to opinions, feelings and ways of life, however intolerable to many, must be respected.

It is to be feared that the Southern Negro Congress may have fallen under the influence of Communists or Communist sympathizers who, by dragging in extraneous issues, have only confused and complicated the Southern Negroes' struggle for equality of opportunity.

There are always two sides. People who disagree with us may be simpletons; but, on the contrary, they may not be the ones who are.

## He Brought It To The Right Place!

## New Forces Shaping In Palestine

IN PALESTINE there are two Jewish extremist organizations, the Stern Gang and the Haganah, both of which claim responsibility for various outrages against the British Mandatory Power. Both are repudiated by the Jewish Agency Executive in Jerusalem. Marvin B. Gelber says in the International Journal: "The Jews have more to lose by violence in Palestine than any other party concerned. Zionism has been a movement of Jewish renaissance in the finest liberal tradition. The immoral nature of the acts committed and the brutalization of the youth which performs and applauds these daring ventures weighs an added burden on the shoulders of those who have striven to build a national home for the Jewish people based on the highest ideals of a tradition rich in noble aspiration. It is reported that the two terrorist groups are close to the Revisionist Party which was expelled from the World Zionist Organization many years ago. The use of terror against the British, by a fractional group, to draw attention to itself and undermine the Jewish Agency as a party of peace, is a factor in the situation that informed observers have been careful to note."

ON THE OTHER SIDE Palestine's Arabs have built up two youth organizations, Futawa and Najjada, respectively the Arabic words for Power and Rescuer. Najjada was formed early in 1945 and its commander-in-chief is a 39-year-old lawyer, Mohammed Nimr Halawi. Its strength is estimated as between 8,000 and 12,000, with headquarters in Jaffa and regional commands in Jerusalem, Haifa, Lydda, Gaza, Galilee and Samaria. In public Halawi describes his organization as "a sports and non-partisan unit with the slogan 'Arab land for the Arabs,'" says the News Review. "Members are trained to obey orders and withstand hardships; and though they deny it they are trained to shoot."

It was sponsored by the Arab Higher Committee and originally backed by the powerful Hussein family and when Jamal Hussein returned from exile in Southern Rhodesia, he tried to gain control but Halawi shook him off.

Consequently Jamal's Palestine Arab Party recently formed the rival organization of Futawa, which wears U.S. Army surplus uniforms purchased in Cairo, white head-dresses and carries short, fancy daggers. Now estimated to be about 13,000 strong, its leader is Kemal Effendi Arikat, an ex-police officer and son of Abdul Raham Arikat, the founder of the Palestine gendarmerie and one time adviser to the Emir Abdullah and King Faisal.

RIVALRY between Najjada and Futawa promises to be short-lived. Both are to be organized under the Arab Higher Executive and plans have been made to merge the two into a common defence force with a Supreme Commander in Chief Haj Amin el Hussein, otherwise known as the pro-Nazi Mufti of Jerusalem.

Zionists complain that, although emergency regulations forbid uniforms, Britain has taken no action against the Arab khaki and green. A Zionist spokesman in London says "military operations are conducted against the Jewish community with the alleged aim of restoring law and order. Yet the Arabs are allowed to form military organizations under control of their 'political leadership.'"

This point of view is countered by Arab spokesmen who state that "these movements are young and some of their methods may not be easily understood by those who have been brought up in peaceful and mature democratic communities. But they do fulfill a very deep need of the rising generation of educated Arabs and as such should be regarded with sympathy."

"ENCOURAGED by President Truman's badly-timed suggestion that 100,000 Jews should be admitted into Palestine at once," suggests News Review, "Zionist terrorist gangs are once more on the war-path" and it seems only a "question of time before 'Power' and 'Rescuer' organizations feel strong enough to act. Trained as spear-heads, the 'Power' and 'Rescuer' organizations might trigger off a new revolt."

"In the great common tasks which confront them, the bitterness of the present can be forgotten and the long run needs of both can ensure that British interest and Zionist achievement continue to make of Palestine a bastion of the democratic world," concludes Marvin Gelber. "To the pan-Arabians who prefer the struggle for political power to the urgent task of remaking the rotten social system of which they are the beneficiaries, the alliance of Britain and Jew appears a deadly peril."

## Norway Builds For The Mind

(From the New York Times)

NORWAY is proceeding with plans to build the newest university in Europe and the second in that country. The extremely crowded conditions at the University of Oslo, the greatest backlog of students eager to resume their education, interrupted by the Nazi occupation which sent many hundreds to concentration camps in Germany, have crystallized a half century's effort to provide a university for western Norway in the city of Bergen.

Bergen, second largest city in Norway, already possesses a traditional centre of research and community education in the Bergen Museum which was founded in 1825. The museum, housing 10 scientific departments, is to be integrated with the municipally supported Haukeland Hospital. The hospital will become the core of the second medical school in Norway.

Heading the university movement is the director of the Bergen Museum, Dr. Bjorn Trumphy, who came to Bergen in 1935 from the Trondheim Technical Institute as professor in cosmic physics. Dr. Trumphy is a former Rockefeller Foundation Fellow who studied in 1927 and 1928 with Prof. Nils Bohr at the University of Copenhagen and with Prof. Max Born at Gottingen University in Sweden.

DR. TRUMPHY, who conducted researches in nuclear physics at Bergen in 1940-41, currently maintains contacts with Professor Bohr, who participated in the development of atomic energy in the United States during the war.

Along with the interest taken by the faculty, the keen interest of students attending classes at the museum was instrumental in bringing the university to reality. A student committee has helped create supplemental facilities for the instruction of humanistic studies in addition to the scientific ones. Norwegian intellectual leaders have been brought to Bergen to round out the education of students who heretofore have had to go to Oslo to obtain their doctorates.

There are 10 men of professional rank at the Bergen Museum today, with 25 assistants and about 200 students. The university is expected to instruct 2,000 students.

IN 1938 the government appointed a 10-man committee, selected by Norway's national congress, the Storting, to investigate the possibility of creating an institution of higher learning with the rights and privileges of a university. The next year the committee reported the desirability of such a development, but advocated a step-by-step growth, since the financial resources of the country were not great enough to permit the necessary expenditure all at once. Like

tary operations are conducted against the Jewish community with the alleged aim of restoring law and order. Yet the Arabs are allowed to form military organizations under control of their 'political leadership.'"

This point of view is countered by Arab spokesmen who state that "these movements are young and some of their methods may not be easily understood by those who have been brought up in peaceful and mature democratic communities. But they do fulfill a very deep need of the rising generation of educated Arabs and as such should be regarded with sympathy."

"ENCOURAGED by President Truman's badly-timed suggestion that 100,000 Jews should be admitted into Palestine at once," suggests News Review, "Zionist terrorist gangs are once more on the war-path" and it seems only a "question of time before 'Power' and 'Rescuer' organizations feel strong enough to act. Trained as spear-heads, the 'Power' and 'Rescuer' organizations might trigger off a new revolt."

"In the great common tasks which confront them, the bitterness of the present can be forgotten and the long run needs of both can ensure that British interest and Zionist achievement continue to make of Palestine a bastion of the democratic world," concludes Marvin Gelber. "To the pan-Arabians who prefer the struggle for political power to the urgent task of remaking the rotten social system of which they are the beneficiaries, the alliance of Britain and Jew appears a deadly peril."

the university at Oslo, Bergen's will provide free tuition.

Last April 9, the sixth anniversary of the invasion of Norway by the Nazis, the Storting voted sufficient funds to start the building of additions to existing structures. The Bergen Museum already boasts a library of 250,000 volumes, which also requires additional housing.

## Clipped At Random

AN AWARD FOR SERVICE  
(Montreal Daily Star)

The works of our communications people during the war were tremendous. Over thousands of miles of barren coastline where communications were practically non-existent, great networks of line and cable were installed. In nine days elaborate radio, telegraph and telephone requirements for the Quebec Conference were met.

The other day in Montreal the United States War Department took formal recognition of the wartime services of these communication experts in a pleasing ceremony and presentations. It was a gesture well earned.

BACK TO METHUSELAH  
(Ottawa Citizen)

Comes to hand a little four-page brochure entitled "The Shavian," published by the Shaw Society in Canada.

It is, one gathers, the official organ of a group newly organized in Toronto to spread the social doctrines of the great Irish dramatist, who last July reached his 90th birthday and whose lightest word on affairs small or great today is promptly cabled to the ends of the earth.

Members are urged to: (1) Read Shaw every day; (2) endeavor to instill your personality with the Shavian attitude; (3) discuss Shavianism; (4) enlist new members.

Adoration of the master is carried to even greater heights. Articles point out lovingly that Shaw is a "vegetarian, total abstainer and non-smoker." A good many persons down through history have managed to reach 90 without living either virtuously or hygienically.

But there's no harm in trying, and if it affords G.B.S. another smile in his old age to watch others going back to Methuselah and seeking to mould genuses by patterning themselves on a self-acknowledged one, so much the better.

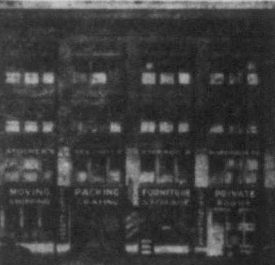

THE COST OF LIVING  
(Edmonton Bulletin)

Everyone knows that there have been serious increases in the Canadian cost of living. Nevertheless, the overall increase has been exaggerated by citing the higher prices of foodstuffs and clothing without reference to the prices of other commodities.

Price control very definitely has had a beneficial effect. In five years under control prices have increased little more than half as much as they did in the first two war years without control.

The car business may never be the same again. Too many have learned that a car built to run 100,000 miles isn't worn out after going 10,000.

Milk, as treated in the modern Palm Dairies plant, is the most carefully safeguarded food that enters the home.

Palm purity controls commence right on the farm, where careful selection of herds ensures the purest source of supply. On entering the plant, the milk is inspected by an expert grader; then it is pasteurized by latest-type equipment, which protects purity without affecting food value. All bottles are washed and sterilized—a process which takes fully 10 minutes. And finally, Palm milk is regularly analyzed for bacteria count.

Here is a series of controls which is the last word in scientific dairy practice. You may be sure of Palm purity.

## 6 STEPS TO PALM PURITY

1. Herds and farm buildings are regularly inspected.
2. The raw product is regularly analyzed for bacteria count.
3. Every can is inspected by an expert milk grader.
4. Milk is pasteurized by latest methods.
5. Cans are sterilized before returning to farm.
6. Bottles are thoroughly washed and sterilized.

"OH, THE PITY OF IT!"—No one was hurt in the accident pictured above, but it was a tragic happening just the same because those four smashed cars were all brand new. En route from the Detroit factory to Mason City, Ia., the huge auto transport hit a viaduct at Moline, Ill. Top of the front car was completely sheared off.

## Predict Revival Of Seal Hunting In Newfoundland

ST. JOHN'S, Nfld. (CP)—Seal hunting, renewed on a small scale this year after dropping to almost a standstill during the last few years of the war, is expected to be renewed on a steadily increasing scale from now on.

Wrecks and enemy action crippled the industry by reducing the seal hunting fleet, operated by St. John's merchants, to one ship in 1943. Now steps are being taken to rebuild the fleet and it is expected the industry again will take its place in the economy of the country.

The hunt takes place in late March and early April in the frigid waters northeast of Newfoundland. During the winter months the seals from the Arctic move down to the Grand Banks off Newfoundland.

With the coming of spring the seals begin to return to their Arctic haunts. The move north is so timed that the female seals give birth to their young on ice-floes moving southward. The young seals are particularly sought because their pelts can be sold to seal coat manufacturers. Others are used in the manufacture of leather goods. Seal oil is used in the making of soap, in the tanning industry and sometimes as fuel.

In prewar years the hunt gave employment to approximately 1,500 men. Because the hunt comes before the opening of the cod season there is usually little trouble in finding the number of men needed, despite the fact that the job is not without its hazards.

The types of ships used in the hunt are usually of the 300 to 400-ton icebreaker class which can crash their way into the ice-floes where the hunt is carried on.

Men frequently have to leave their ships and travel several miles over the floes in search of seals. Cases have been recorded where the men were caught in sudden blizzards and frozen to death on floes.

When the industry was operating at its peak, the number of pelts taken ranged between 100,000 and 350,000 a season.

Whaling, abandoned almost entirely when the price for whale oil dropped in the 1920's, was resumed a few years ago on a small scale and is not expected to expand to any great extent unless there is a greater demand for whale products.

Two companies, one in Labrador and the other in the south coast of Newfoundland, now operate about five whaling ships. Most of the products from the catches go to Canada, the United States and Great Britain.

## Union Asks Boosts For Dockyard Men

Victoria branch of the National Union of Machinists (C.C.L.), has asked the National War Labor Board to institute immediately wage increases approved for other British Columbia shipyards following renegotiation of contracts last summer.

The union has sent the following wire to the board: "Wege increases and other conditions granted B.C. shipyards not yet established nor being paid to workers in H.M.C. Dockyard, Esquimalt. Our membership aroused over government failure to live up to conditions established in private industry since Aug. 1. Demanding immediate action. Please reply at once to clarify present situation."

At the same time the local union has wired the Canadian Congress of Labor headquarters requesting the congress intervene with the National War Labor Board, adding "situation developing which demands immediate action."

## Hollywood

By ERSKINE JOHNSON  
HOLLYWOOD (NEA)—Inflation is here. A Hollywood hot-dog stand, "The Tall o' the Pup," is serving a \$1 hot-dog. With caviar, yet . . . A Hollywood record company is putting out a new record titled "Three Minutes of Silence." You drop a nickel into a juke box and get three minutes of silence . . . United Artists is plotting to film the life story of Mary Pickford.

That outbuilding vividly described by Betty MacDonald in "The Egg and I"—as well as by Chic Sale and James Whitcomb Riley before her—will be missing from the film version of Betty's book. The censorship code does not countenance the presentation of outdoor plumbing.

Red Skelton's reward to leading lady Virginia O'Brien after completion of "Merton of the Movies"—a velvet-covered jewel case delivered by a liveried chauffeur. Inside, one filet mignon.

### ULCERS UNLIMITED

Jack Benny, telling a studio audience that he gets nervous just before a broadcast: "I've got ulcers I haven't even used yet." . . . Eddie Cantor is learning to dance for his next RKO movie, "The set," he says, "is closed to everyone except the teacher, a doctor and two nurses." . . . Two unknowns will get the singing leads in producer Seymour Nebenzal's movie version of Puccini's "Madame Butterfly."

Mary Pickford and Buddy Rogers will use only the title of "The Bat." They'll have an entirely new story for the new edition of the Mary Roberts Rinehart thriller . . . Dolores del Rio is due back on the English-speaking screen in the John Ford picture, "Fugitive." It will be filmed in Mexico City.

Peter Lawford staged it to The Bodge. When asked to pose for the magazine photographers, he chose the cigarette girl as his picture partner . . . Ann Dvorak will vacation in Mexico City when she completes

"A Time to Kill." By coincidence (or is it?) Arturo de Cordova will be there, too.

### MASON-DIXON MEDLEY

Opie Cates, the band leader, who is from the south, has a medley of southern songs in his home. They are all female—his four small daughters are named Dixie, Dinah, Linda and Liza Lane . . . Billy Wilder describes his latest film, "The Emperor

Waltz," as a musical in which no one tries to get an audition with Jose Iturbi . . . Jon Hall's airplane business in Santa Monica is bringing in so many shekels he's thinking seriously of quitting the screen.

Gene Autry will be starred in "Robin Hood of Texas" . . . Howard Hughes is giving up all his radio and television activities . . . Philip Wilkie, son of the late

### Occupation Film Of Denmark Shown

A former member of the Danish underground, Arvid Klemensen, now touring the world as a barber aboard the Danish

Wendell, has joined the legal department of a major studio . . . Jackie Cooper will star in a comedy, "Kilroy Was Here."

ship Erria, this week showed to a group of Victorians, meeting at 719 Yates Street, his 16-m.m. record of the German occupation of Denmark.

Mr. Klemensen was twice arrested by the Nazis for underground activities. His films he obtained by taking them with his camera hidden in a shoe-box and operated by a spring control system.

## VICTORIA RETAIL JEWELLERS' ASSOCIATION

BUY with CONFIDENCE from your JEWELLER

THE CRAFT OF AN ARTIST

With Your Happiness  
In Mind We Suggest—  
*Give Jewellery*

Your Jeweller is a member of an ancient craft in which skilled artisans take pride in fashioning precious stones and metals into sparkling pieces of loveliness . . . Just as the craftsman is proud of his handiwork, so too is your Jeweller proud of his reputation as a dealer in beautiful and artistic things.

*Your Jeweller* . . . WITH YOU AT LIFE'S MILESTONES

From babyhood, watches, silver and precious jewels are always the expression of love and devotion . . . For all joyous occasions - Graduations, Engagements, Weddings, Anniversaries - JEWELLERY IS ALWAYS THE PREFERRED GIFT . . . and when it comes from YOUR JEWELLER it means more, for his name on the box adds prestige to your selection but adds nothing to the cost.

Saturday is Muffin Day!

RECIPE

From ONE easy mixing—THREE days' baking!

Luscious raised muffins for Saturday hunch . . . tempting fruit whirls for Sunday breakfast . . . and a rich, tender loaf that's perfect for the lunch-box sandwiches—all from one batch of dough! Clip this easy recipe now!

**BASIC 3-WAY RECIPE**

3 cakes compressed yeast*	2 teaspoons salt
2½ cups lukewarm water	6½-6¾ cups sifted flour
½ cup molasses or brown sugar	2 tablespoons melted shortening
3 cups All-Bran	

\*If you do not plan to store dough in refrigerator, use only 2 yeast cakes

Crumble yeast into large bowl; add lukewarm water; stir until yeast dissolves. Add salt, molasses or sugar, add 3 cups flour; beat well. Add shortening; beat well. Add All-Bran and remaining flour; mix thoroughly. Sprinkle with flour, turn out onto board; knead until smooth and elastic (about 10 minutes). Put in bowl twice as big as mound of dough; brush with melted fat. Dough may now be stored, if desired. (To store, cover with waxed paper and store in refrigerator.) If dough, or part of dough, is to be baked at once, let rise until double in bulk. Punch down. Let rise 15 minutes, shape and bake according to the following directions. (If just bread or muffins are desired, make only half the recipe.)

**ALL-BRAN RAISED MUFFINS:** Form ½ of dough in balls to fill greased muffin pans ¾ full. Brush with melted fat; let rise to double in bulk. Bake at 425°F. about 15 minutes.

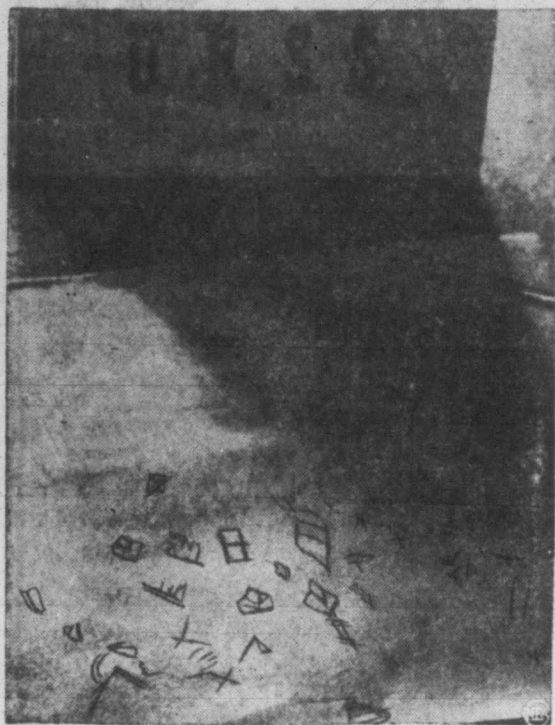

**ALL-BRAN FRUIT WHIRLS:** Roll ¼ of dough ¼ inch thick. Spread with fruit filling. Roll up and cut in inch slices. Place on greased cookie sheet and brush with melted fat; let rise to double in bulk. Bake at 400°F. about 20 minutes.

**ALL-BRAN BREAD:** Form ½ of dough in loaf; place in greased bread pan; brush with melted fat. Let rise to double in bulk. Bake at 400°F. for 15 minutes; reduce heat to 350°F. and bake 45 minutes.

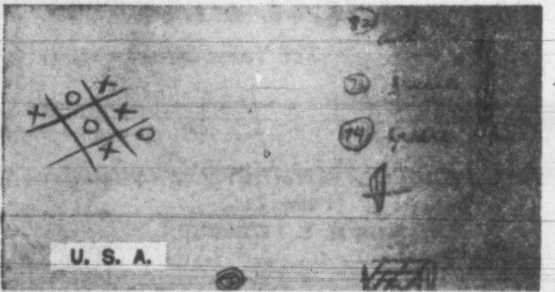

P.S.—Kellogg's All-Bran is guaranteed to keep you regular naturally or double your money back!

# Doodling Diplomats

The place card of Union of Soviet Socialist Republics casts its shadow on the random scribbles made on blotter pad used by Russia's delegates at Peace Conference. If you're looking for anything like the symbol for atomic energy in Soviet doodles, it isn't there. Psychologists think doodling like this provides outlet for release of emotional or nervous tension that often accompanies intellectual activity, presume delegates were under considerable strain.

Intellectual preoccupations found on the blotter at United States desk were concentrated on Australia and Greece, plus a game of ticktacktoe that ended in a stalemate. Differences in quality of doodling among nations indicated to psychologists that not all delegates were under equal strain at the peace parley.

International doodling left its mark on the blotting pads on which delegates scribbled while they parleyed at the Paris Peace Conference.

Although psychologists and psychiatrists have not definitely determined the psychological significance of doodling, they were able to draw "tentative and preliminary" inferences from one day's scribbles as recorded by an NEA photographer.

The experts, members of New York University's Testing and Advise Centre, point out that you "cannot generalize about a national group on the basis of the performance of one member of the group; nor can one day's doodles indicate that the same conditions would exist on any other day."

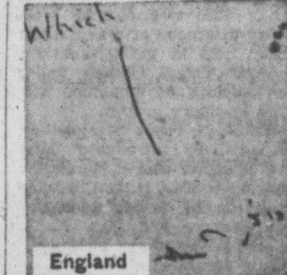

With those limitations, here are some possible characteristics the N.Y.U. experts found in the peace parley doodles:

Doodling generally indicates preoccupation "with some intellectual activity or problem requiring close concentration. This clearly applies to the delegates."

Heavy lines reflect emotional strain; light lines, lesser tension. "Thus some of the delegates appear to be under more tension than others."

The delegates' doodling shows an absence of broken or tremulous lines, "suggesting they are well integrated in their intellectual and emotional life."

Prevalence of "non-human content" in the doodlings is "probably a function of their superior

Enigmatic word "which" and either Arabic or shorthand appear on Great Britain's blotter. Light lines may show feeling of uncertainty, perhaps insecurity.

Russian delegate Vischinsky's name, spelled with a "W," is clear on French blotter, where doodler also scribbled the rough figure of what could be a man.

Psychologists say human content in doodles often reflects interest in people. This doodle by a Netherlands delegate was the only one of a distant face.

Intelligence and does not necessarily indicate a lack of appreciation for the human element. If anything, it suggests a subordination of personal problems to consideration of the common good.

A busy scribbler made the doodles on Poland's blotter. Like Russia but unlike others, there is nothing you can recognize in these Polish whirligigs.

Predominant interest in Polish city of Krakow on Yugoslavia's blotter is unexplained by psychology. Doodler may have been listening to a Polish speaker.

**Joint Defence Board Winds Up 2-Day Meeting**  
MONTREAL (CP)—The Canada-United States Permanent Joint Defence Board Wednesday concluded a two-day meeting here and announced its deliberations

would be reported to the respective governments. A statement issued by Gen. A. G. L. McNaughton and F. H. La Guardia, joint chairmen, said "The meeting has afforded the usual opportunity for a frank and comprehensive exchange of views on North American de-

fence matters. It is expected the board will meet again in February, possibly in central Canada."

VICTORIA DAILY TIMES: Thursday, Nov. 21, 1946

## Victoria Girls Rose And Helen Eng, In Fashion Battle

NEW YORK (CP) — A trans-Atlantic battle over whether English women dress better than Americans or vice versa developed yesterday and before it was settled two Canadian girls, Helen and Rose Eng of Victoria, were drawn into it.

A writer for London's Daily Mail last week returning to Britain after a visit to the United States commented about American women: "They are very well dressed, too well dressed. American women hit you with gale force. They have everything but grace and elegance."

Yesterday the New York World Telegram rushed to the defence of American womanhood by interviewing students of a fashion academy directed by Emil Alvin Hartman, who annually names America's 10 best dressed women.

The Victoria girls were among the first the interviewers encountered at the academy. Asked if they didn't think American women were better dressed, they looked up from their drawing boards and replied (apparently in unison): "Oh, yes that's why we came here to study, New York women are much better dressed."

Helen went a bit further. Recalling British women in Victoria, she said: "The British women up there are more conservative. American women are more up-to-date."

The Misses Eng, daughters of Mr. and Mrs. Sung Eng, Queens Avenue, have been in New York for some months studying dress design at the fashion academy. They will return to the Pacific coast when the course is concluded.

## Y.W.C.A. Bazaar Planned Nov. 30

At a recent meeting of the board of directors of the Y.W.C.A. Mrs. J. D. Hunter, chairman, reported on final arrangements for the Christmas bazaar and tea to be held at the Y.W.C.A. Nov. 30.

Miss Kathleen Agnew will officially open the affair at 2 and there will be booths of home cooking, homemade candy, aprons, handkerchiefs, toys, handicrafts and superfluties. Proceeds will be used for Y.W.C.A. reconstruction work in other countries.

During the meeting reports were given by Dr. Olga Jardine, president, and Mrs. John Baxter, provincial vice-president, who attended the annual meeting of the Y.W.C.A. National Council in Toronto in October.

The club department reported a full program this season with clubs and classes meeting every right in the week. The club year started with an enrollment of 350 in married women's, business girls' and Hi-Y clubs and 156 in classes for leather work, glove making, sewing, bridge, crafts, dancing and badminton.

### P.T.A. News

North Ward—Mrs. G. Harris presided at the meeting of North Ward P.T.A. when Miss N. M. McKillican gave a talk on music appreciation in the school. A shower is to be held at the home of Mrs. A. McLeod, 817 Kings Road, on Nov. 28 from 2 to 4. Mrs. H. A. Beckwith will open the bazaar on Dec. 4 at 2.30. A whist drive will be held in the evening following the bazaar.

Gordon Head—A meeting of Gordon Head P.T.A. was held in the school when final plans for a bazaar to be held Dec. 6 were made by the 17 members present. D. Cameron will preside at the next meeting on Dec. 4.

Don't have another permanent until your hair has been reconditioned with hot oil treatments beforehand.

## Convenes Charity Ball For Auxiliary

Mrs. T. A. Satchwell is in charge of all arrangements for the Charity Ball to be held at the Royal Colwood Golf Club on Nov. 29, under the auspices of the Junior A.iliary to St. Joseph's Hospital. Len Acres' orchestra will play for dancing and there will be a room for cards. Supper will be served. Tickets for the ball can be obtained at Cathcart's and The Toggery Shop. Other members of the committee are Mrs. J. O'Connor, Mrs. J. Mason, Mrs. L. J. Davey and Miss Patricia Walsh.

## Personal Notes

Miss Audrey Robertson, who has been the guest of her fiancé's mother, Mrs. G. A. Birks, in Vancouver, has returned to her home, 1754 St. Ann Street.

Capt. A. C. M. Davy and Mrs. Davy will entertain today at their home, H.M.C. Dockyard, with an after-five party. Capt. and Mrs. Davy also entertained on Tuesday after five.

Mrs. Hart H. Henderson will entertain at the tea hour Friday at her home, 630 Oliver Street, in honor of Mrs. W. H. Morrow and Mrs. M. McGratton of Saskatchewan, when guests will number 20.

Mrs. H. Kitching, 552 Margaret Street and her daughter, Miss Joan Kitching leave Friday for Vancouver en route to New York where they will sail aboard the Queen Elizabeth for England to join Mr. Kitching in Salisbury, Wiltshire.

Miss Dorothy McLaren, a December bride-elect, was honored Wednesday when her aunt, Mrs. J. Gorman, entertained at the tea hour in her Linden Avenue home. Mrs. L. A. Ditchburn and Mrs. D. K. Kennedy presided at the tea urns.

Miss Helen Baird of Victoria and Vancouver, who is spending the winter in the east, is at present the guest of Mrs. Douglas Cunningham in Ottawa. Mrs. Cunningham is the former Miss Ivy Brown of Victoria.

Mr. and Mrs. R. H. B. Ker, Shasta Place, who have been spending the past few days in Vancouver, will return to the city Friday morning. While in the mainland city, Mr. and Mrs. Ker have been staying at Hotel Vancouver.

Rear-Admiral E. R. Mainguy, commanding officer, Pacific Coast, and Mrs. Mainguy entertained at a dinner party Wednesday evening at Admiral's House, H.M.C. Dockyard. Guests were Cmdr. and Mrs. R. P. Kingscote, Major and Mrs. L. Knoop, Lieut. and Mrs. F. C. Pettit, Sub-Lieut. and Mrs. A. K. Cameron, Dr. and Mrs. W. E. Baker, Miss S. Williams and Lieut. M. W. Mayo.

Miss Norma Ainsley was hostess with a shower held at the home of her mother, Mrs. T. T. N. Ainsley, 1464 Begbie Street, recently for bride-elect Miss Edith Kilvington. Corsage bouquets were presented to the principal and her mother. Other guests were Mesdames Doris Kilvington, J. Napies, and Misses Marjorie Davies, Karen Gustafson, Elsie Kilvington and Miss Peggy Jones.

On the occasion of their silver wedding anniversary, Mr. and Mrs. R. Arthur Jr. were honored recently when an enjoyable evening was spent at the home of their oldest daughter, Mrs. R. Cain, 20 Menzies Street. Numerous gifts were presented to the guests including a set of flat silverware from their two daughters. Mr. Arthur Pankhurst proposed a toast to their continued happiness. Other guests were Mr. and Mrs. R. Arthur Sr., Mr. and Mrs. A. Pankhurst, Mr. and Mrs. F. A. Graham, Mr. and Mrs. J. Armour, Mr. and Mrs. R. Young, Mrs. V. C. Graham, Mr. and Mrs. R. Cain, Mr. and Mrs. J. Brown and Mr. J. Doherty.

## Auxiliary Clears \$800 At Bazaar

Over \$800 was cleared Wednesday afternoon at a Christmas bazaar held in the gymnasium of First United Church under the auspices of combined women's auxiliary groups.

Mrs. R. H. Nash, president of the auxiliary introduced Miss Sara Spencer, who declared the affair open. Mrs. R. L. Cox, convener of the bazaar presented Miss Spencer and Mrs. H. A. McLeod with corsage bouquets.

Gaily decorated stalls were set up on the floor of the gymnasium, with the following groups in charge: Oak Bay, Mrs. Alice Stewart; Uplands, Mrs. Robert Morrison; Stadacona, Mrs. C. N. French; Oaklands, Mrs. W. A. McLean; Quadra Heights, Mrs. W. S. Dawson; Fairfield, Mrs. A. McKeachie; Central Park, Mrs. J. Dirom; Beacon Hill, Mrs. P. Balagno; Evening group, Mrs. J. L. M. Anderson.

Afternoon tea was served at small tables on the balcony. Seated at the head table were Miss Spencer, Mrs. Nash, Mrs. Cox and Dr. H. A. McLeod. Tea arrangements were convener by Clover Point group, Mrs. J. A. McMartin, assisted by the Pas-Pas group, Mrs. Neil Grant.

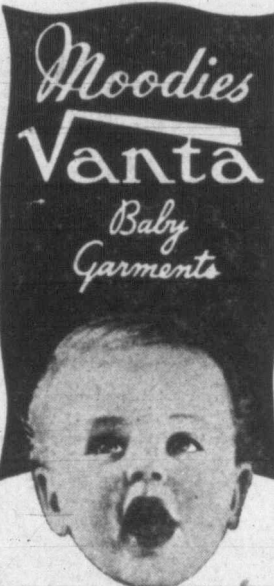

The Jubilee group headed by Mrs. C. M. Young, also assisted.

### Club Calendar

Rebekah Past Noble Grand Club, Friday at 8, Aladdin Tea-rooms, Fort Street.

Regular meeting, W.A. to P.P.C.L.I., Friday at 2.30 at the home of Mrs. C. Pelly, 909 Esquimalt Road. Final plans for Christmas tree to be made.

Ward Auxiliary—The regular meeting of the Children's Ward Auxiliary to the Jubilee Hospital was held with Mrs. D. McCaw in the chair and 14 members present. Plans for decorating the children's ward for Christmas and for the purchasing of Christmas gifts were made. Miss L. Mitchell reported a full ward the past month. Members voted one dozen Turkish towelings bibs. After the business meeting, probationary nurses of the hospital were entertained. Films were shown by Ted Colby of the B.C. Travel Bureau and refreshments served.

**Do You Feel Nervous And All on Edge?**  
People suffering from loss of appetite and rundown condition with symptoms of nerve strain often need a nerve and general tonic. Glycerolacithin with Vitamin B(1) supplies tonic ingredients. It is especially beneficial for convalescents. By increasing the supply of Vitamin B(1) in the system, appetite is improved and the system thereby built up to normal if the loss of appetite was due to deficiency of Vitamin B(1) in the diet. \$1.00 at all Cunningham Drug Stores and other Drug Stores.

**Let's Eat!**  
Smart Purchase—When buying fish, such as salmon, halibut and trout, it's sound economy to buy a pound or so extra. Thus if any is left from the first meal it won't be wasted, but can be turned into a new dish for another meal.  
For Cold Evenings—You will save work by keeping the makings for quick cocoa in a covered jar in the icebox. Just combine 1 cup of water, ½ cup light corn syrup and three tablespoons cocoa, cook for 5 minutes or until slightly thickened. Add as needed to hot or cold milk.  
Lamb Ragout—Cut 2 pounds lamb into one-inch pieces. Dredge meat in ¼ cup flour to which has been added 1 teaspoon salt, ¼ teaspoon pepper and dash of ground cloves. Brown meat with ½ cup chopped onion in 2 tablespoons hot fat. Add 3 cups water and simmer in covered pan until tender. Skim off fat, add 6 medium carrots, quartered, 1 cup celery, chopped, 1 tablespoon spiced meat sauce and 1 teaspoon salt. Cover and continue cooking until vegetables are tender. Serve with dumplings.  
Holiday Gifts—If you're planning holiday food gifts for some of your friends, tuck in a gaily wrapped small can or two of ripe olives. The shiny beauty of delicious black olives makes them elegant enough for any occasion.  
Having Company?—With more dipping chocolate available for consumers, make your own luscious chocolate covered almonds. Toast unblanched almonds first and dip in melted chocolate.  
Potato Creole—Four tablespoons fat; 4 cups sliced raw potatoes, 1 onion, sliced, 2 cups canned tomatoes or tomato juice, 1½ teaspoons salt, ¼ teaspoon pepper. Melt fat in frying pan and add potatoes and onion and cook for 10 minutes. Add tomatoes, salt and pepper. Cover and simmer for 30 minutes, or until potatoes are tender and tomato juice becomes thickened. Serves six.  
Mock Mince Pie—Combine 5 cups chopped puffed tart apple, 1½ cups firmly packed brown sugar, 3 tablespoons vinegar, ¼ cup water, 1½ cups sultanas, ¼ teaspoon cloves, ¼ teaspoon allspice, ¼ teaspoon nutmeg, ½ teaspoon salt. Slowly bring to boiling point, simmer 40 minutes, stirring. Pour into nine-inch unbaked pastry shell, cover pastry with heart-shaped pieces cut out, make fancy edge. Bake in hot oven, 425 degrees F., 30 minutes.  
Cocoa Oatmeal Cookies—Cereal cookies are another method of tricking the younger members of the family into getting that necessary nourishment. Junior won't be able to keep his hands away from the cookie jar if mother uses this recipe: 1½ cups sifted pastry flour, 1½ teaspoons baking powder, ½ teaspoon salt, 6 tablespoons cocoa, 1½ cups granulated sugar, 1 egg, ½ cup milk, 1½ teaspoons vanilla, ½ cup shortening (or equivalent), 2 cups rolled oats. Sift first five ingredients into bowl, beat egg well, then add milk ingredients. Mix in rolled oats. Drop by teaspoons on a greased cookie sheet. Bake in moderate oven.  
Sew Jersey seams with tissue paper backing to prevent puckering or stretching.

**Make Gift Fruit Cakes Now**  
It's time to think of those Christmas fruit cakes. Planning to give a few to dearest friends? In any case, make them now and let them ripen.  
It's a generous idea to bake them in heat-resistant glass containers with cover. Then, long after the cake has been eaten and enjoyed, the glass containers go right on reminding your friends of your Christmas good will. Seal the crack where cover meets dish with parafin or a strip of Scotch tape.  
Gift Fruit Cake—1½ cups figs, chopped, 1½ cups dates, chopped, 3 cups (prepared mix) fruit-cake fruit ½ cup raisins, chopped, ½ cup broken nutmeats, 1½ cups sifted all-purpose flour, 1 teaspoon mace, 1 teaspoon allspice, ½ cup shortening, ¾ cup sugar, 4 eggs, ¼ cup orange juice, ¼ cup lemon juice, ¼ cup grape

juice, candied fruits and nut halves for decorating cakes.  
Place fruits and nuts in a 2½ quart mixing bowl. Sift flour, salt and spices over fruits and nutmeats.  
Cream shortening gradually in a 4 quart bowl. Add sugar and beat until fluffy. Add well-beaten eggs. Beat well. Add flour and fruit mixture and fruit juices alternately, stirring well after each addition.  
Pour ¾ of batter into a well-greased heat-resistant glass skillet and the remainder into a 1½ quart heat-resistant glass saucepan. Each dish should be about ¾ full.  
Decorate tops of cakes with fruits and nuts. Cover each dish with heat-resistant glass cover and bake in a slow oven (250 degrees F.) as follows:  
Skillet — About two hours. Saucepan, about three and one-half hours.

**Enthusiastic Crowd At Burnside Bazaar**  
A small, but enthusiastic crowd, braved the wintry weather to attend Burnside P.T.A. bazaar Wednesday. Mrs. W. Blair, president of Victoria and District P.T.A., opened the affair which was under the general convenship of Mrs. N. Hogan. Among those attending were Mayor Percy E. George and Mrs.

**Dutch Apple Cake**  
**A Good Dessert**  
Dutch apple cake takes two cups of flour, three teaspoons of baking powder, one egg, one large or two medium apples; ½ teaspoon of salt; ¼ cup of butter; ¾ cup of milk; 2 tablespoons of sugar; ¼ teaspoon of cinnamon.  
Mix and sift the dry ingredients except the sugar and cinnamon. Cut or rub in the butter, add the milk and beaten egg gradually. Spread ½ inch thick on a shallow greased pan. Pare, cut the apples in sections lengthwise, and set in dough; sprinkle the top with sugar and cinnamon, bake in a hot oven, 400 degrees fahrenheit, 25 to 30 minutes. Serve with cream, if possible.  
If you peeled your apples, save the parings and cores, cook them in about two cups of water until they are well broken down, then strain through a sieve or damp cheesecloth, and use the liquid

## Toronto Santa Parade Draws Largest Crowd In Years

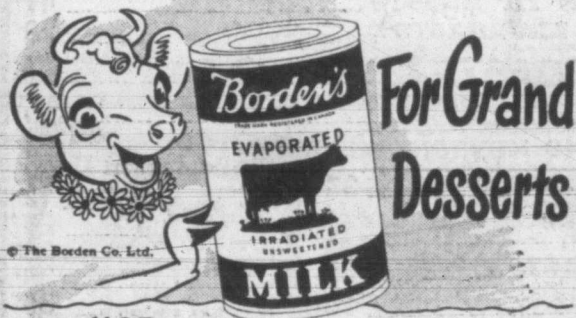

Santa Claus parade in Toronto is one of the year's biggest children's events. Sixteen floats and eight bands made the parade last week the longest in many years. Some of the children lined the route for hours before Santa put in an appearance.

Santa's float, shown above, was biggest and best in parade, but his retinue of clowns and jesters, who mingled with the kids along the parade route, practically stole the show.

## Tax On Newspapers, Magazines Proposed

MIAMI, Fla. (AP)—City Commissioner R. C. Gardner has proposed new city taxes on news-

papers and magazines. He would tax newspapers and magazines 1 cent for those selling at 5 cents; 2 cents for those selling for 10 to 15 cents, and 3 cents for those selling for 20 to 25 cents.

USE  
**Borden's EVAPORATED MILK**

For Grand Desserts

Frightened lost youngsters, separated from their parents by the crowds watching the Santa Claus parade, wound up with their own celebration in police station. Constable "Butch" Keeling is shown being an impromptu Santa Claus for the babes.

## 2 Hunters' Deaths Remain Mystery

BRIDGETOWN, N.S. (CP)—Discovery of the bodies of two

Wolfeville, N.S., hunters after a fortnight's search of the woods back of this Annapolis valley town today led only to the mystery of the cause of their deaths.

One of 35 parties of searchers Wednesday came upon the bodies of the pair, Brooks Salsman, 19, and Rupert Forsythe, 46, within three miles of the spot where the hunters had parked their car and entered the woods 13 days ago.

A coroner's jury viewed the scene by flashlight Wednesday night, then adjourned until Dec.

4 to allow police to complete their investigation.

R.C.M.P., who refused to comment on possible causes of death, called in the provincial pathologist, Dr. R. P. Smith, to conduct an autopsy later today.

Members of the search party said there were no signs of violence about the bodies.

A comb of moulded nylon, with teeth that can be bent flat without breaking, is on the market.

## Meeting Dec. 4 To Clarify Priorities

A meeting of Victoria suppliers of lumber and other building materials to get clarification on the priorities system will probably be held Dec. 4. Mayor Percy George said, as he wired acceptance of Hon. C. D. Howe's offer to call such a meeting.

The business, trade and re-establishment committee is in charge of the arrangements, and Ald. B. J. Gadsden said that

Dec. 4 had been suggested as the date.

## Cumberland Miner Dies Of Injuries

B.C. police report John William Watson, 68, was fatally injured in Canadian Collieries (Dunsmuir) Ltd. No. 5 mine, Cumberland, in an accident Tuesday night.

Coroner N. W. Spinks will hold an inquest on the miner's death.

## Recruiting Campaign For Reserve Army Shows Fair Progress

Fair progress in the campaign for recruits for reserve army units here is reported by Canadian Scottish recruiting officials.

Units seeking recruits here are the 5th B.C. Coast Regiment, R.C.A.; 1st Bn., Canadian Scottish Regt.; 66th Light A.A. Regt., R.C.A.; 5th Area Signal Sqdn., R.C.C.S.; 13th Field Ambulance, R.C.A.M.C.; 46th Field Hygiene Section, R.C.A.M.C.; 59th L.A.A. Workshop (A), R.C.E.M.E., and 8th A.A. Gun Operations Room.

Potential recruits will find a recruiting booth at Douglas Street and Pandora Avenue during the day. At night, interviews will be held at Bay Street Armories.

In support of recognition of the reserve army's importance in Canada, Lieutenant-Governor Charles A. Banks, honorary colonel of the C.S.R., says, "The patient, loyal and sacrificial service of these units is our heritage, and I am pleased to support any movement which will serve to preserve this heritage."

## 3rd Of Servicemen, Women, Married In Forces, Records Say

OTTAWA (CP)—More than 30 per cent of all servicemen and women were married during the war or after discharge from the forces, Veterans' Minister MacKenzie said today.

He reported the findings of a survey made by the Dominion Bureau of Statistics for the veterans' department. The bureau interviewed some 6,000 "representative" veterans last summer.

The survey showed that more than 60 per cent of all veterans were married, and that more than half that number had gone to the altar during or after their service. About 18,000 servicemen married service women.

Other survey conclusions: Thirty-one per cent of veterans are between 25 and 29 years of age; 28 per cent are in the 20-24 group; 18 per cent 30-34; 12 per cent are living on farms.

More veterans are living in Nova Scotia, Quebec, Ontario and British Columbia than enlisted in those provinces. The other provinces have fewer veterans than they had enlistments.

## THE REAL ESTATE BOARD OF VICTORIA NOTICE TO TENANTS

The Real Estate Board of Victoria wishes to draw the attention of tenants to the fact that they are responsible for the proper upkeep and protection of the dwelling in which they reside.

It is quite possible that during the coming winter extra precautions may be necessary in respect of plumbing and fixtures. We therefore desire to impress upon you the fact that a little extra attention in the way of turning off the water supply, draining pipes and other precautions, on any indication of severe frost, will not only save considerable expense, but great inconvenience to yourself.

We have every confidence in your co-operation.

Thanking you,  
Yours very truly,  
HUBERT LETHBRIDGE, Secretary.

Victoria, B.C.

## Victoria Nature Talks

GERANIUMS CULTIVATED  
AND WILD: CRANES, HERONS  
AND STORKS

By ROBERT CONNELL

Walking along one of our many old-fashioned streets the other afternoon I was delighted to come on a little garden between two cottages in which the plants were almost wholly geraniums. Late fall as it was the foliage was robust and the trusses of red flowers were by no means over. There was that peculiar richness of color in leaf and blossom that has always endeared the cultivated geranium to the cottage gardener.

I don't know exactly when the geranium came into general cultivation but it appears to have been introduced into Great Britain in the early part of the eighteenth century. But here it may be as well to observe that the plants ordinarily styled "geraniums" are properly called "pelargoniums," a quite distinct genus of the geranium family and natives of South Africa, although "pelargonium" is now usually confined by florists and gardeners to a particular kind, namely one with unequal petals and usually spotted or blotched with contrasting colors. These cultivated pelargoniums in the larger sense are divided into ivy-leaved, zonal, and the irregular flowered already referred to.

The name "pelargonium" is derived from the Greek "pelargos," a stork, and refers to the shape of the seed-capsule. Similarly the name "geranium" is from the same Greek word as our "crane" and in English appears as "Crane's-bill." A third genus of the same geranium family bears the name "erodium" from the Greek for "heron." These distinctions are interesting and even important, but in common speech we usually find it sufficient to say with Cowper: "Geranium boasts her crimson honors," at least when we refer to the common cultivated kinds.

Every gardener comes upon some of our wild geraniums in the course of his work. But they are generally introduced species that follow cultivation more or less everywhere in temperate regions. We have about half a dozen species of true geranium or cranesbill on the Island all introduced, and two species of erodium or storks-bill. As all these are more or less partial to open ground they are familiar objects along paths and roadsides and railway tracks as well as in garden beds.

The small pink flowers, round leaves, and long reddish stems with the soft hairs so often present all tend to make the plants conspicuous and even innocent-looking, but the radiating habit of growth enables them very quickly to annex almost the

whole of the area in which they grow.

An interesting example of one of the introduced wild geraniums occurs on one of our streets and would appear to have originated in a rock-garden. Along the sidewalk as far as the street surface, by the fence and over the rock outcrops grows an abundance of herb-robust, Geranium robertianum, its sharply cut leaves, each with three or five stalked segments, and its small purplish red flowers, made more conspicuous by the bright red color that not infrequently appears in stems and foliage. The plant is strewn with conspicuous hairs and has a strong scent when touched, scarcely pleasant to most tastes. It has so far confined itself to about the width of a lot.

Some years ago I came on another interesting plant of the family, an Erodium or storks-bill this time, growing on the old B.C. Electric Railway grade near Burnside Road. This was the hemlock storks-bill, so called because the featherlike leaves are suggestive of the poison hemlock foliage or, perhaps, also because of the strong musky odor they emit when crushed. This is Erodium moschatum, and it too is an introduced plant. Its botanical name means musk storks-bill.

## Critical Of City On Airpark Plan

Members of Ward 3 Saanich Ratepayers' Association are critical of the City Council and the Chamber of Commerce for "the high-handed action taken in endeavoring to purchase a certain property in Gordon Head for use as an airfield or airpark."

The ratepayers have passed a resolution in which they contend this action was in deliberate defiance of the wishes of those most directly concerned.

On the question of transportation to the Gordon Head district, the ratepayers will ask Saanich Council to have the bus service improved, with lower fares.

Recently re-elected president of the association is N. C. Bell. C. U. Haywood has been named vice-president and H. S. Jones, secretary-treasurer.

## Film Council

Two films on safety included in the present allotment of Co-op Ex. Films are "Four Thousand Years of Experience," how good housekeeping speeds production in peace as well as war; and "We're on the Spot," describing how safety at work speeds production and conserves manpower.

Other films are: "Heights and Depths," on the evolution of printing, and "Canadian Screen Magazine No. 4," showing briefly (a) Big "Liz" bringing back 12,000 happy Canadians, (b) Troop carrier to airliner conversion of DC-3's for T.C.A., (c) B.C. salmon run, (d) Veterans regaining efficiency with artificial limbs, (e) Students producing art china in new industry.

A new selection of films has been added to the permanent collection by the National Film Board.

The film forum on recreation will be held Friday night at the City Council chambers at 8 p.m. on places of recreation will be shown and discussion will follow. This meeting will be open to the public.

Annual meeting of the Film Council will be held Dec. 5.

## Knickerbockers In Pro Basketball Lead

NEW YORK (AP)—New York Knickerbockers took over undisputed possession of first place in the eastern division of the Basketball Association of America race Wednesday night by defeating Chicago Stags, 72 to 69, before 3,256 fans.

In winning their fifth game in seven starts, the Knicks broke a 53 to 53 tie with a six-point outburst just before the end of the third quarter, then put down a last-quarter rally by Chicago to annex their first triumph over the westerners in three meetings this season.

## Blaze Almost Wipes Out Business Section

PRINCE ALBERT, Sask. (CP)—A large store of flour and cereals lay ruined today amid the charred rubble of five business buildings in Spiritwood, Sask., as the result of a fire which caused more than \$100,000 damage and almost wiped out the main business section of the town.

Origin of the fire is still unknown, although it was reported it began from an overheated oil stove. Buildings destroyed were: the post office, a hotel and cafe, lumber company office, a butcher shop and doctor's office.

## City Woman Loses Brother In Calcutta

Mrs. H. Norris, 556 Toronto Street, received a cable Tuesday containing the sad news that her youngest brother, Maj. Valentine Fairbrother, of the Royal Army Service Corps reserve, was shot and killed in the Moslem riots in Calcutta on Nov. 10.

Maj. Fairbrother, who was 46 years of age, was a veteran of World Wars I and II. He went out to India at the close of the first war to make his home in Calcutta, and served in the Burma campaign in the last war. His wife and one daughter, Valerie, survive him in Calcutta. His wife's mother, sister and two brothers lost their lives in the retreat from Burma, while trying to join her in India.

Mrs. Norris also lost another brother last July, he succumbing at Northfield, England, of injuries sustained while carrying out his duties as an official of St. John Ambulance Association during the blitz.

## Many Citizens Still In Need Of Housing

Only about one-fourth of the citizens of Greater Victoria who have sought housing accommodation through application to the Citizens' Rehabilitation Council in the past four months have been placed, it was reported by the council Wednesday night.

In the four-month period 591 applications were received, but only 157 of that number could be placed. This leaves 434 still unplaced.

Before purchasing a home, the council advises veterans once again to see the housing experts of the businessmen's panel of the C.R.C. or the D.V.A.

Graduates of Queen's University will meet tomorrow evening at the home of Albert Sullivan, 1127 Richardson Street. The special guest and speaker will be Dr. Roger Manning, formerly of Queen's, now associated with the University of Saskatchewan.

## Kids Make Best Of Light Snowfall

It was not long before these two photographs were taken that frolicking children were gazing hopefully out of their Grade 6 classroom windows at North Park School at the snow falling on Victoria Wednesday—hopeful that the fall would be heavy and that the "school's out" bell would hurry up and ring.

Although the fall was light,

they, along with thousands of other Greater Victoria school-children, made the best of it, sliding, snowballing and generally having the time of their young lives.

In the top picture a spirited group of boys are busy making a slide in the school playground. The snow on their clothes is evidence that spills were plentiful. In the lower picture the girls "gang up" on their 12-year-old classmate, Fred Thompson, who good-naturedly, had his face rubbed in the snow. On the left is Annie Barnard, 12, and on the right Jacqueline Barnes, 12, and Joan Bainbrough, 11.

## Howe Foresees 1947 As Building Year

OTTAWA (CP)—Canada is likely to have the biggest building year in its history in 1947, Reconstruction Minister Howe said Wednesday night.

He devoted a major part of his address, broadcast over the CBC in the political free-time series, to a discussion of housing problems.

He said that although there now were 30 per cent more workers in the construction industry than a year ago, the 1946 target of 60,000 houses would be short by 5,000 to 10,000. Responsibility was pinned by the minister on strikes which interrupted the flow of materials.

"A survey of unfinished dwellings in municipalities of 5,000 population and over shows, as at Sept. 7, 35,000 units incomplete," he reported. "Special efforts are being made by our priorities

officer to bring into occupancy those houses which are 50 per cent or more complete."

He voiced optimism on next year's outlook.

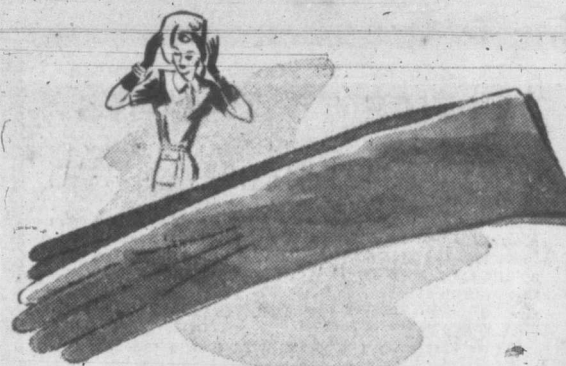

## Australia Provides 1,200-Mile Range For Rocket Tests

CANBERRA (CP)—The government has accepted British proposals for the establishment of a rocket range that will stretch some 1,200 miles across the Australian continent and eventually reach far into the Indian Ocean.

An announcement here confirmed reports circulating since April when Lt. Gen. J. F. Evetts came from Britain with a "rocket mission" and surveyed prospective sites for such a range.

The Canberra announcement said Gen. Evetts will return soon to lay the groundwork for the \$20,000,000 project to start out with rocket firing at limited distances and progress to experiments with guided long-range projectiles.

The first step will be the setting-up of a 300-mile-long range, but the final testing area 200 miles wide will extend northwest from the fringe of the grazing lands in the state of South Australia across the wind-swept desert to the northwest coast at Pearling Centre or Broome, and out toward Christmas Island in the Indian Ocean.

U.S. Davis Cup tennis team poses at San Francisco just before taking off by Clipper for Australia, where they are scheduled to represent the U.S. in the challenge round against the Aussies Dec. 26. Standing, left to right, are Tom Brown, Gardner Mulvey, William Talbert and Frank Parker. Front row, Jack Kramer, non-playing captain Walter Pate and Fred Schroeder.

## Argos 3 To 1 Choice To Win Over Balmy Beach Saturday

TORONTO (CP)—The Monday-morning quarterbacks who won't remind you that they failed to prognosticate an all-Toronto final in the eastern Canada grid scene are hastily assuring you now that the Argos will whip Balmy Beaches—and wise money says 3 to 1 they're right.

Basis for the odds is not only the respective performances of the two teams during the year but also the 14 to 2 trimming Beaches took from Argos in the 1945 eastern Canada final. Despite the "sure-thing" certainty of the outcome, there promises to be an overflow crowd some of which will probably have to hang from the clouds.

Both the Big Four Argonauts and the Ontario Union Beaches have strong wing lines comprising big, powerful and experienced gridders. And it's on these lines that the outcome most probably will depend. The Argos line has a better record having played topnotch ball through the season and was a standout in the final game against Montreal Alouettes.

The Beach line, on the other hand, played mediocre ball during the O.R.F.U. season but came

## Sports Mirror

By PETE SALLAWAY

PASSING of Jimmy Walker, former dapper mayor of New York, brings to mind the fact this colorful fellow did a lot for the world of sport. In paying tribute one newspaper described him as "New York's No. 1 sports fan." Walker sponsored the famous Walker law legalizing boxing in New York state and other bills permitting Sunday baseball and movies. Walker introduced the bills while a state senator thus opening the way for Tex Rickard's fabulous New York boxing promotions of the 20's.

WALKER loved all sports and was a familiar figure at major events but he liked boxing best because, as he said once: "I like it because a man is on his own in the ring. Nobody asks where he was born, who his parents were and what was his religious faith. All they want to know is: Can he fight?" He added: "Look at the welterweight division. Barney Ross, a Jew, won it from Jimmy McLarnin, a Canadian of Irish descent, and lost it to Henry Armstrong, a negro. This is the democracy of the prize ring."

WALKER's great gift for an apt phrase was perhaps best demonstrated by his comments at the Edward A. O'Neill (boxing) award dinner in 1941. Jimmy presented the trophy, given annually to the man judged to have done the most for boxing, to heavyweight champion Joe Louis. Then he turned to the outstanding negro fighter and said: "Joe you have laid a rose on Abe Lincoln's grave."

THREE National Hockey League stalwarts were born in the United States. They are Frankie Brimsek, Boston Bruins great goalie; Johnny Mariucci, Chicago Black Hawks rugged defenseman and Bill Moe, New York Rangers rearguard. Brimsek and Mariucci were born at Eveleth, Minn., while Moe was born at Danvers, Mass. Eveleth is the most productive hockey incubator in the U.S. Besides Brimsek and Mariucci such former Chicago goalkeepers as Mike Karakas and Sam Lo Presti were also born there.

ADAM BROWN, Detroit Red Wings left winger, is the only player performing in the National Hockey League who was born in Britain. Brown first saw the light of day in Johnstone, Scotland. He now makes his home in Hamilton, Ont., but glories in his Scottish ancestry. Brown also holds the reputation of being just about the toughest in the major hockey circuit when it comes to throwing punches while balanced on a pair of skates.

## Bays Battle Cadets In Rugby Feature

Smarting under a 17 to 0 defeat handed them earlier in the season, Naval College rugger will be out to avenge the setback and end the winning streak of the powerful J.B.A.A. when they meet in the feature match on the double bill of the Victoria Rugby Union at Macdonald Park Saturday afternoon at 2:30.

With such speedy backfielders as Gibbs and Montgomery carrying the mail, Cadets are confident that they can more than make things interesting for the Bays. Bert Buller, on the other hand, is pointing to another B.C. title and claims his starry aggression will repeat its shutout win over the Cadets.

On the lower field at 2:15, J.B.A.A. will meet the Naval College in an intermediate match.

NEW WESTMINSTER (CP)—New Westminster Adanacs defeated Vancouver Meralomas 33 to 25 in the opening game of the Vancouver and District Senior Basketball League Wednesday.

Walt Julian was top scorer for Adanacs with 14 points. Pomfret and Bakken each scored nine points for Meralomas.

## Percy Norman Coaches Youngsters With An Eye To Olympiad In 1948

VANCOUVER (CP)—Twice weekly at an indoor pool on the shores of English Bay a score of eager youngsters go through their swimming paces under the direction of a man with an eye to Canada's sport future.

The man is swim coach Percy Norman and the future is the Olympics in 1948 and the British Empire Games, probably in 1950. At a snap guess right now Percy figures he's got at least 14 girls and boys—aged 11 to 18—who are prospective Olympic material.

And Percy should know—he's trained so many Canadian champions he's lost count but admits the coaching of swimmers past and present who still have 40 Dominion marks on the record books.

In fact Percy has become such a water sport figure in these parts, it's hardly possible to talk swimming without thinking of the rotund coach. Kids flock to

him to be taught. Officials admire him—so much that when he tried to quit last year because of pressure of business, they pestered him until he came back.

Wednesday evenings and Sunday he takes time out from his butcher shop business to show "the kids" the art of the freestyle, the breaststroke and the backstroke.

### BRIGHTEST STAR

Coaching for the Vancouver Amateur Swimming Club since 1932—"just for the love of it"—Percy now considers Irene Strong, dark-haired 17-year-old breaststroke and freestyle artist, probably the brightest star he ever brought along. She holds all the major Canadian junior breaststroke records and the 40, 50, 200 and 220-yard senior breaststroke marks for the Dominion.

Recently Irene caused a sensation by doing the 220 breast-

stroke in 3:07.6 against the Canadian mark of 3:17.4 held by Joan Langdon, former Norman protégé who now lives in Toronto. Excited officials said it might be a world mark. "Though it turned out that it wasn't," Percy was far from down-hearted and said: "Irene is getting better all the time. She'll swim two to three seconds faster than that before long. Sure she'll crack a world mark before she's through. You just wait and see."

Others in Norman's "string" include Teddy Wilson, young holder of the Canadian 50-yard backstroke record and Norah Kirkpatrick who set a new 100-yard women's backstroke mark this year at Hamilton.

Norman took Canada's swim team to the 1936 Olympics and is definitely optimistic about her swimming chances in 1948.

"We'll be in there," he said, confidently.

## Rowe Leads Legion To Victory Over Dominoes

Coach Alex McKeachie's Canadian Legion hoopers handed the Dominoes a 54 to 51 defeat in a terrific overtime struggle at Victoria High School gym last night that was featured by the sensational shooting of big Hank Rowe, Legion bucket ace, who racked up a total of 20 points against his former teammates.

For the first time this season the veterans really got hot around the hoop and by some startling shooting bounced into a first-quarter lead, which they managed to hold up till the final five minutes of the match, when the Canadian champions forged to the front. From then until the end of the overtime session, the crowd was in an uproar as teams matched basket for basket with the Legionnaires pulling away in the final two minutes of the extra session.

Legion held the upper hand in the first half and were enjoying a seven-point lead at the intermission. The third period was even with the Dominoes managing to slice the margin to six points. Four consecutive foul shots by Joe Bryant and a basket by Rookie Wright gave the Dominoes their first lead of the game, but Rowe and Dale came back to knot the score at 46 to 46, Dale's basket coming seconds before the end of the match.

### OVERTIME SCORING

Walker scored first in the overtime, but Bryant and Wright with a free shot and a hoop put the Legion one point down. Two foul shots and a basket by Rowe and another hoop by Dale gave the veterans a five-point margin. Bryant ended the scoring with a pretty basket at the bell.

St. Louis College Alumni, led by King and Curtis with 13 and 12 points, respectively, trounced Macdonald's five 45 to 29 in a senior B tussle, while the Comets ran roughshod over the Hepcats to the tune of 50 to 16 in a girls' match.

Brentwood Aces senior B and intermediate B teams will play hosts to Bruisers and K.V.'s to-night at the Brentwood Hall with the first game starting at 7:30 and the second contest one hour later.

Teams and scores follow: Hepcats—B. Peterson 1, P. Peterson, Slater 2, Gussard 2, Boyd, Knowlton 2, Wakelin, McKay 2, Shenley. Comets—McDonald 16, Esler 2, J. Bradshaw 4, Robbins, D. Bradshaw 12, Blair 4, McLennan 4, White 8, Hancock 6. Alumni—King 13, Garsnet 6, Curtis 12, O'Connell 4, Duncan 8, Reagan, Bettie. Macdonald's—Lomas 1, Giles 4, Malcolm, Peterson 2, Pace 2, Sprinkling 2, McCorkill 2. Dominoes—Bryant 12, Lewis, C. Chapman 4, Wright 12, Jackson 8, Clarke 12. Canadian Legion—Goldsmith 5, McKeachie 6, Walker 6, Rowe 26, Watson, Dale 4, Fox, Woodhouse, Baker 2, Hall 4.

## White Spots-Cubs Win Junior Hockey

NANAIMO (CP)—Sparked by Ernie Dougherty with four goals, Vancouver White Spots Wednesday night defeated Pacific Coast Junior Hockey League fixture here. Approximately 450 braved the frigid temperatures to watch the wide open and at times, loosely played game.

Spots showed much more class than the defending champion island sextet and after taking a 3 to 2 first period lead increased their margin to 7 to 4 in the second.

In a game at New Westminster the league-leading Cubs defeated U.B.C. 7 to 6.

### CERDAN IN U.S.

NEW YORK (AP)—Marcel Cerdan, French holder of the European welter and middleweight boxing titles, arrived on the Ile de France Wednesday for his bout with George Abrams of Washington, D.C., in Madison Square Garden Dec. 6.

The French fighter said he hoped to qualify for a shot at Tony Zale's world middleweight crown while in the United States.

## Whistling Fans Delay Ice Clash

CHICAGO (AP)—A new manifestation of the enthusiasm which Chicago hockey fans show for their Black Hawks led to an announcement over the public address system at the Hawks-Detroit N.H.L. game last night: "Will the spectator who has a whistle please put it in his pocket."

The officials were lining up the players for their third face-off in about a minute. The announcement led to a chorus of whistling (mouth, not mechanical) that further delayed the game.

## Seattle Ironmen Register Sixth Straight Ice Win

Frank Dotten's Seattle Ironmen made it six in a row last night by trouncing New Westminster Royals 6 to 2 in a Pacific Coast Hockey League game at Seattle. A stellar job in the nets by Royals' goalie Denny Manus prevented the Ironmen from administering a bigger shellacking.

In San Diego, Fresno Falcons defeated San Diego Skyhawks by a 1 to 0 count. Eaton scored the winning goal in the first period to give Fresno their first victory in four starts. Paul Runge, San Diego coach, filed a protest after a tying goal, netted by the Skyhawks in the third period, was disallowed.

Los Angeles Monarchs tightened their hold on third place in the southern division by defeating San Francisco Shamrocks 4 to 1 in Hollywood. Buckey Buchanan blasted the Monarchs hope of a shutout with a rink-long, solo effort in the third period.

## Varsity Cagers Win Season's Opener

BELLINGHAM (AP)—The University of British Columbia, champions of last year, defeated Western Washington College of Education 55 to 53 in the opening basketball game here Wednesday night. The Canadians led 33 to 23 at the half.

The teachers led but once and briefly, 7 to 3 in the first three minutes of play.

High scorers were: Kermode with 15 and McG with 14 points for U.B.C., and Payler, Western Washington, with 11.

## Hostak Hurts Hand, Cancels Bout Tuesday

SEATTLE (AP)—Manager Eddie Marino Wednesday canceled Al Hostak's scheduled 10-round boxing match Tuesday night with Benny Droll of Peoria, Ill. The reason he gave was that the former middleweight champion had bruised his left thumb in training. Dr. James Moriarty, state boxing commission physician, said Hostak had but it wasn't serious. A specialist corroborated him, but Marino was adamant.

Matchmaker Ron Warnock hit the ceiling, and when he came down, he announced that Harry (Kid) Matthews of Seattle would sub for Hostak.

## Boston Scores Second Triumph Over Toronto

For the in-and-out showing of Boston Bruins, an acceptable explanation today might lay in the testimony of their own Art Ross that they still lack condition—but even that would hardly explain the hex Bruins hold over Toronto Maple Leafs.

It may be that the bruising Bruins, staunchest of the National Hockey League's old guard with only one rookie in their line-up, take special servings of vitamin pills before every brush with the brash young Maple Leafs.

## Hockey Standings

	N. H. L.	W. L. T. F. A. P.
Toronto	7 2 3 37 30 17	
Canadiens	6 4 3 38 32 15	
Boston	5 3 5 39 30 15	
Detroit	5 7 2 50 57 12	
Chicago	4 6 1 41 42 9	
Rangers	3 8 2 33 47 8	

## Ice Scoring Race Tight; Conacher Tied For Second

National Hockey League scoring leaders made good use of last night's two games and with the exception of first place, the race tightened up.

Billy (The Kid) Taylor, Detroit, whacked in a goal and earned an assist to boost his total to seven goals and 13 assists for 20 points. Maurice Richard, Montreal, idle with his 10 goals and six assists, moved over to give room to Roy Conacher, Detroit, who notched two tallies to up his total to seven and nine for 16 points. Other marksmen scored and three grouped for third place with 13 points, two for fourth berth with 12 and four for fifth with 11 points.

Leaders follow:	G.	A.	Pts.
Taylor, Detroit	7	13	20
Richard, Montreal	10	6	16
Conacher, Detroit	5	9	16
Abel, Detroit	5	5	13
Kennedy, Toronto	7	6	13
M. Bentley, Chicago	7	7	13
Hanlin, Chicago	7	5	12
D. Bentley, Chicago	4	8	12
Lindsay, Detroit	3	11	11
Schmidt, Boston	6	5	11
Brown, Detroit	2	9	11
Bauer, Boston	2	4	11

### BAYS CANCEL PRACTICE

The J.B.A.A. rugby practice scheduled for tonight at Macdonald Park has been canceled.

### SOCCER CANCELED

Wednesday Soccer League matches were canceled yesterday, due to the unsuitable playing conditions at Navy grounds and Athletic Park.

The practice scheduled for Victoria United soccer team at Athletic Park tonight has been canceled, it was announced by manager Ralph Cosier last night.

## The DOCTOR Says:

POOR NUTRITION CHECKS  
PHYSICAL GROWTH

By WILLIAM A. O'BRIEN, M.D.

Generally speaking, well-fed children are taller and heavier than are their parents, and college students are taller and heavier than are those who do not attend college. Heredity plays a minor role in these differences; the main factor is better nutrition.

The influence of family income on children's growth and development is the direct result of the financial ability of the parents to put into practice the principles of good nutrition. High-income families do not necessarily have physically superior children, however.

The effect of better nutrition on the American children of

## Your Baby will ENJOY

Babies like Heinz Strained Orange Custard Dessert because it has a liberal content of orange juice, milk, eggs and other ingredients which make it easy as well as highly nutritious. There are also 21 other varieties of Heinz Strained Foods for your baby.

MEATS  
VEGETABLES  
FRUITS  
DESSERTS

foreign-born parents is striking. Japanese children born in America are larger and heavier than are children in Tokyo. Some foreign-born parents continue their old food practices, however, and as a result their children deviate little in size from the old-world norm.

### LIKE FATHER, LIKE SON

Tall, rugged parents tend to produce tall, rugged children. Experimentation with white rats has proved that larger, heavier animals produce offspring similar to themselves, largely because they are able to assimilate their food more efficiently.

College students often finish their growth early. College men are practically through growing at 18 years of age, while college women seldom grow much after their 16th year.

Men and women who do not go to college, on the other hand, tend to grow until they are 21 and 19 respectively.

The present large number of tall, heavy young men and women suggests that the human race can increase in size for some time to come.

Illness during childhood will halt growth, but it does not have the same effect upon ultimate body size as does poor nutrition.

The greatest need for the development of physically superior people is not only good food production and distribution, but also better popular food selection.

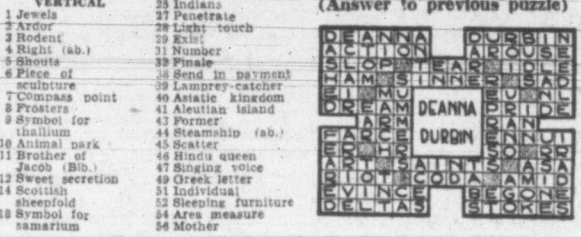

### BASIC FOODS REQUIRED

For some time nutrition authorities have urged that the diets of growing children include certain basic food materials. Many parents disregard this advice and

and other vegetables and fruits; (4) pasteurized milk and milk products; (5) meat, poultry, fish, and eggs; (6) enriched bread and cereal and (7) butter and other fats.

## Uncle Ray

TROMBONE GREW FROM CURVED TRUMPET OF LONG AGO

Among the teachers in the high school which I attended years ago, there is one whose name I seem to have forgotten. Yet I remember something very clearly about him—he performed on the trombone one day while the pupils were gathered in the auditorium.

Never before had I seen a trombone, and I was interested in the sounds which came from it. Back and forth he moved the parts of the instrument, and once or twice the notes seemed to be the wrong ones.

The trombone has been called a "push-in-and-out trumpet." It is, indeed, a kind of trumpet but one which has been much changed.

Going back 2,000 years, we find that the Romans used an instrument known as a "buccina." This was a long, curved tube which had almost the shape of a capital "C." Measuring around the curve, the tube had a length of about 12 feet.

The buccina may be described as a curved trumpet. It was made out of brass, and it gave forth strong notes.

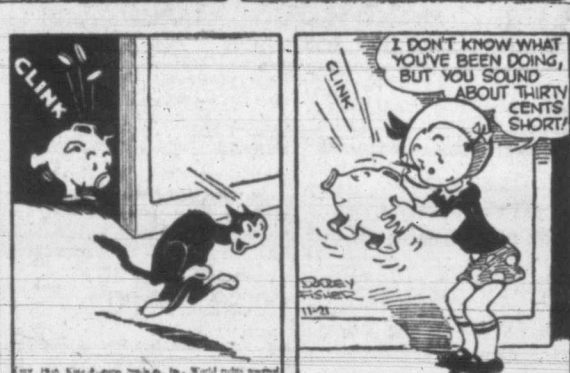

After the fall of the Roman empire, the buccina was little used for hundreds of years. Then, under the name of busine or busna, it began to come into favor again.

The long, curved tube was hard to handle, and its place was taken at length by the "sackbut," a trumpet with a tube which would slide back and forth. When the tube in a sackbut was moved to give greater length, there was a deeper pitch to the sounds which came from it.

That sliding trumpet was improved until it became the trombone of modern type. A trombone is a very long tube, with sliding parts, which is curved and can be handled easily. When the tube is made shorter, the notes are of higher pitch.

The saxhorn is another wind instrument made of brass. It was invented a century ago by a Belgian named Adolphe Sax. Instead of being a horn, the saxhorn is a "valve bugle."

The great American bandmaster, John Philip Sousa, invented an instrument which has been called "the giant of the band." This is the sousaphone.

## 2 Victoria, 2 Duncan Firms Among 22 Formed During Week

Two Victoria and two Duncan companies were among the 22 new registrations under the Companies Act made at the Parliament Buildings during the week.

The new Victoria firms are Pemberton & Son Ltd., \$100,000, and Pontiac U-Drive Ltd., \$20,000. Registered from Duncan were Evans Lumber Co. Ltd., \$15,000, and Cowichan Motor Transportation Ltd., \$30,000.

From Vancouver the following firms were registered: Morgan Logging Co. Ltd., \$50,000; Margaret Fraser Ltd., \$10,000; Stretton Ltd., \$10,000; Solotone Music Co. Ltd., \$25,000; Miller Perkins Ltd., \$10,000; B.C. Amusement Research Co. Ltd., \$10,000; Planet Agencies Ltd., \$10,000; Premium Oil Burner Sales and Service Ltd., \$10,000; Trinidad Mastic and Floor Tiles Ltd., \$20,000; Highland Trucking Co. Ltd., \$50,000; Or-Mel Agencies Ltd., \$25,000; Contractors Insulation Ltd., 100 shares, no par value; Northern Insurance Agency Ltd., \$10,000; Harrell & Ryder Drugs Ltd., \$10,000; R. & D. Strang Ltd., \$10,000; Silver Standard Syndicate Ltd., non-personal liability, \$50,000; Yat Fine Logging and Lumber Co. Ltd., \$10,000; Hatfield Estates Ltd.,

\$175,000 and 250 shares, no par value, and Maple Ridge Bus Service Ltd., \$10,000.

From elsewhere in British Columbia the following firms were registered: Hedley Motors Ltd., \$20,000, Hedley; Springhouse Lumber Co. Ltd., \$20,000, Williams Lake; Lillooet Box Shook and Builders Supplies Ltd., \$20,000, Lillooet; Johansson Co. Ltd., \$10,000, New Westminster, and Willow Point Timber Co. Ltd., \$25,000, Willow Point.

Registered extra-provincially were Standard Forest Products Ltd., 20,000 shares, no par value, head office Edmonton, head B.C. office, Tete Jaune; Hughes Owens Co. Ltd., \$104,445, head office, Montreal, head B.C. office, Vancouver, and Barclay & Co., Inc., \$38,000, head office, Seattle, head B.C. office, Vancouver.

Under the Societies Act Zion Lutheran Church Society, Brockelhurst; Blue River Community Association, Blue River; The Municipal League of Vancouver, Vancouver; Warfield Recreational Society, Trail, and Buckley Valley Branch No. 63, Canadian Legion, B.E.S.L., were registered.

An Assize Court jury Wednesday afternoon found Phillip Pettit, 24, not guilty on a charge of attempted rape of a 22-year-old Victoria girl Sept. 23. P.J. Sinnott acted for the defense.

Alex Martin, of the gas boat Silver Dollar, reported to police today the theft Wednesday night from an Inner Harbor landing of nearly 600 feet of new rope, an anchor and some fishing gear.

## Citizens Give Advice On B.C.'s Educational Program

School curricula should give greater emphasis to Canadianism, it was stressed by speakers representing various groups who met at the Empress Hotel, at the request of Education Minister G. M. Weir, to consider a new social studies course being prepared by the department.

Dr. Weir said schools in British Columbia must move ahead with the new Canadian Citizenship Act, passed last summer by the Dominion Parliament.

Explaining the purpose of the meeting he said the job of teaching new Canadian and their children about Canadian citizenship fell almost entirely on the provinces and education authorities wanted to know just how the program could be assisted.

Dr. Weir suggested the new act would go a long way to promoting Canadian unity.

Attending the meeting were representatives of labor, church, professional and business groups as well as others.

**HISTORICAL IDEAS**  
B. A. McKelvie, grand historian for the Native Sons of British Columbia, contended not enough emphasis was placed on local history as a background for citizenship, while William McLaughlin, representing the Victoria and District Trades and Labor Council believed local history was not enough. He advocated the entire Canadian heritage needed to be stressed.

George Wilkinson and John Rowlands, other labor representatives, thought more attention could be given to labor's program. Pointing to the United States, where he said Americans have a program to make their chil-

dren conscious of the greatness of their way of life, Rev. T. L. Leadbeater said: "We need unity of ideas and aims in the training of our children today toward making them good Canadian citizens."

Bernard Gillie suggested schools should give students greater opportunity to practice democracy in the schools and in their social activities.

Dr. Hugh McLeod, Bishop H. E. Sexton, and Rev. J. L. W. McLean spoke on the religious aspects of education. Ed Mallek gave the viewpoint of the Jewish community.

Dr. J. M. Ewing, principal of Victoria College, referred to the need of earlier study of sociology and psychology and H. O. English, principal of Victoria Normal School, referred to the importance of science in the course of studies. Dr. M. Thomas, principal of Mount View High School, questioned the policy of teaching students historical stories if they are hungry.

**QUESTION OF SPELLING**

One speaker referred to the poor spelling of many students and Dr. Weir remarked that this was not confined to children. Many of the letters which he received from adults complaining about this matter, contained errors as well.

Many modern books and magazines were criticized as unfit for children and drew a comment that they were not respectable for grown-ups either.

The discussions ended without any action being taken but Dr. Weir said the criticism would prove valuable to his department in developing its program.

## Ross Charged With Assaulting Youth

James Ross was remanded until Monday without plea when he appeared in city police court today on three charges, which included one of assault against 17-year-old James Darling, 1037 Craigdarroch Road, who is in Jubilee Hospital suffering from cerebral concussion and other head injuries.

Ross also faced two charges of being in possession of property under \$25 value, two wallets and a watch, knowing them to have been stolen.

The accused appeared in city police court Wednesday on a charge of assaulting a police officer, Constable James Baxter. On this charge he was remanded without plea until Saturday.

## Hotel Room Thefts

Three cases of hotel room prowling Wednesday night are under investigation by city police.

Mrs. H. S. Jordan reported a suitcase of clothing and personal effects was stolen from her room at the Strathcona Hotel; Mr. and Mrs. J. H. Russell had a quantity of clothing, an expensive pen and pencil, leather writing kit, and other personal effects stolen from their room at the Dominion Hotel, and Mrs. Harry Gomes, also registered at the Dominion Hotel, reported a camera was stolen from her room when it was prowled.

## 11 Victoria, Island Servicemen On Ship

Eleven Victoria and Island service personnel were aboard the Ss. Samaria which docked this week in Halifax. They are as follows: Maj. J. S. Orton, 130 Robinson; A-Sgt. G. Dawson, Courtenay; A-S. Sgt. H. L. Newell, 1028 Pandora; Pte. B. J. Black, Courtenay; Pte. F. K.

## P. H. Tucker Heads R.N.W.M.P. Veterans

P. H. Tucker was elected president of the R.N.W.M.P. Police Veterans' Association at a meeting held Wednesday night. Other officers are: R. C. Bowen, vice-president; J. Leatham, secretary-treasurer and F. Crossley, H. E. Wilson and J. Bell, executive committee.

Sub-Inspector Henry A. Larsen, commander of R.C.M.P. St. Roch, now docked at Esquimalt, related experiences of his journey through the Northwest Passage.

## Discuss Cost Share For Normal School

A delegation from the Greater Victoria School Board met Col. F. T. Fahey, Deputy Minister of Education, Wednesday to discuss the division of costs for the operation and maintenance of the Normal School building now that it is being used jointly by Victoria College and the Normal School.

A number of tentative suggestions were made, and have been submitted to Dr. George Weir, Minister of Education, for decision. Dr. Weir said today that he had reached no decision as yet and had no announcement to make on the matter.

The School Board seeks to have the basis of maintenance and operation costs set as quickly as possible so that work can be started on the 1947 budget. The provincial Education Department has asked for the School Board estimates by Nov. 30 so that a requisition for the share to be borne by the unorganized territory in the school district can be made out.

## More On Deposit

OTTAWA (CP)—Dominion government deposits increased \$29,320,000 to \$84,161,000 during the week ended Nov. 20, the Bank of Canada reported today in its weekly financial statement. Chartered bank deposits decreased \$17,754,000 to \$531,034,000 while notes in circulation decreased \$2,150,000 to \$1,165,362,000.

A general luncheon meeting of the Victoria Junior Chamber of Commerce will be held next Tuesday at the Douglas Hotel at 12.05.

## CHEAP LUMBER

Cull lumber at less than the price of wood. This lumber cannot be sold commercially at the sawmills because of being offsize, too much bark, splits, checks or pitch streaks, but hundreds of loads are being sold, and pieces picked out to repair barns, sidewalks, fences and garden stakes. Even if all this lumber were cut into wood it would be cheap inside wood and a load will make about 1 1/2 cords. Especially handy for people who live outside of town and find it hard to get wood. This lumber is in 1, 2, 3 and 4-inch boards and planks and timbers up to 20 feet long.

PRICE PER BIG TRUCK LOAD \$575

## U.S. Recovers Blood Plasma In China

Donated by U.S. citizens for their armed forces during the war and recently erroneously listed as "surplus," blood plasma turned up in the Shanghai black market at \$25 a pint. That would make \$1,050,000 for the 3,500 cases. Tipped off by two A.P. correspondents, U.S. officials found 2,000 cases in one Shanghai warehouse and several hundred in another building. The plasma had been sold by U.S. officials in error at 50 cents a pint. Chinese newspaper (right) advertised "This blood plasma was an American wartime product—made for immediate cure of depletion and is suitable for any type blood."

## Ross Found Guilty Of Store-Breaking

James Ross, 35, was found guilty by an Assize Court jury this morning on a charge of breaking and entering into the Reliable Furniture Co., 514 Johnson Street, on June 17, with intent to steal.

A second count of breaking and entering and stealing a shotgun from the premises was dismissed.

Photographs of a trail of blood leading from the broken door of the furniture company to the Bridgeview Hotel, where Ross was arrested by Sgt. T. A. Banister, were produced in court Wednesday afternoon by Detective David Donaldson, who said the pictures had been taken under his direction.

Sgt. Banister said he had followed the trail to the hotel and had later found Ross sitting in a room with a paper napkin bandaging a cut in his hand. He had seen Ross only an hour and a half earlier, the sergeant said, and at that time there was no cut on the accused's hand.

Glass particles, which Sgt. Banister said were found on Ross' clothing at the time he questioned him, were identified by Inspector J. F. C. B. Vance, Vancouver, as coming from the same type of glass as that which was in the broken doorway of the furniture company.

Called by Ross, James Denman said he and Ross had been working a week before in a place where there had been glass fragments littering the floor.

In addressing the jury today, Ross maintained the identification of two persons near the scene of the breaking and entering had not been sure in their identification of him as the man they had seen running away from the store after a crash of glass had been heard.

## Historical Association Names 10 Councillors

Ten councillors of the Victoria section of the British Columbia Historical Association were named at a meeting held Tuesday night in the Provincial Library following the unveiling of a plaque honoring Sir James Douglas.

The councillors are: Miss M. Wolfenden, B. A. McKelvie, Mrs. M. R. Cree, J. H. Nation, Miss Kathleen Agnew, Dr. T. A. Rickard, Miss A. M. Russell, J. A. Heritage, John Gouldie and E. M. McMullen.

Three extra names will be added at the first meeting of the council, to be held Nov. 25.

The association heard Dr. W. M. Sage, head of the University of British Columbia history department, give an address on the life and work of Sir James Douglas, founder of Victoria.

## Octogenarian Passes

Thomas Richard Carey, 81, formerly of Winnipeg and a resident of this city since 1939, passed away at the Royal Jubilee Hospital Wednesday. Surviving are four daughters, Mrs. A. E. Whitehouse, 916 Johnson Street; Mrs. W. M. Scott, Vancouver; Mrs. O. M. Steenburg, Kitchener, Ont., and Mrs. L. B. Tough, Winnipeg. Funeral service will be conducted Friday afternoon at 4 at S. J. Curry & Son Funeral Home, Rev. Hugh McLeod officiating. Interment will take place at Elmwood Cemetery, Winnipeg.

## Expect Gas Service To Homes To Be Restored By Midnight

Complete restoration of gas service throughout Saanich, Esquimalt, and Oak Bay areas, by midnight tonight was anticipated by Victoria Gas Company officials as they continued with emergency measures to meet the critical situation created by yesterday's shutdown.

At the same time they sounded a strong warning that co-operation of consumers was vital in keeping consumption to a minimum if another shutdown similar to Wednesday's was to be avoided. This was based on the assumption of the cold spell continuing.

"We have organized a special crew of 30 men which will call on all homes of gas consumers throughout today and tonight to restore service for them," said E. N. Horsey, B.C. Electric operations manager, who, with W. H. Dreaper, superintendent of the gas company, is directing measures to meet the emergency.

Employees at the gas plant yesterday and today worked long hours to produce a record day's production of 1,523,000 cubic feet of gas as equipment was strained to its peak capacity. A record consumption was made on Tuesday when 1,686,000 cubic feet were drawn off.

## CO-OPERATION SOUGHT

In emphasizing the urgency for consumers to co-operate if the cold spell continued Mr. Horsey listed several points which he asked them to consider in an effort to reduce consumption.

"Don't heat your flat or room with the oven door of the gas range open; have the temperature set on water heaters cut down as much as possible; if you have a combination range use the coal burning side rather than the gas section; don't use any auxiliary gas heating appliances such as gas fires any more than is absolutely necessary," he urged.

This morning it had been possible, due to the shutdown of sections of the distribution system and the co-operation of those whose service was not affected, to build up a reserve supply of over 500,000 cubic feet of gas in the Pembroke Street storage tanks. This enabled restoration of service to get under way early this morning.

Employees of all departments of the company were called into service to form part of the emergency crew which undertook to service every house which had been without gas.

Mr. Dreaper warned that persons who have not yet been visited by the company's representatives should await them before attempting to turn on their own appliances.

During the shutdown air seeped into the gas pipes, he explained, and created a danger of explosion if the pipes were not purged before the gas was ignited. Company officials were taking the precaution that the turning on of service should only be done by experienced personnel in order that consumers might be protected, he said.

## Uplands Club To Buy Golf Links Acreage

After being re-elected to the presidency of the Uplands Golf Club for his second successive year Wednesday night, Ralph Matthews made the announcement that the club will purchase the acres which make up the Uplands course.

Dr. J. D. Calvert was named vice-president, Gordon K. Verley, captain, and Hugh Francis, vice-captain. Committee chairmen elected were: Finance, C. E. Revercomb; greens, George Pattinson; house, C. F. Smith; public relations and publicity, R. F. Williams, and entertainment, A. E. Irish. Mr. Matthews welcomed Mr. S. Evans, Mr. Irish and Mr. Francis, new members to the executive.

An increase in the membership fee was announced.

## \$50,000 Fire Loss

GREYNA, Man. (CP)—Losses estimated at \$50,000 were caused today when fire swept through the business section of this southeastern Manitoba town 100 miles from Winnipeg. The blaze destroyed an office and repair shop, a store and one home.

## Supplies For Alaska

SEATTLE (AP)—The long delayed relief ship Grommet Reefer sailed for Alaska this morning, Alaska Steamship Company officials said. It had been delayed by labor disputes. Food, medical supplies, clothing and livestock feed are being carried by the vessel for Yukat, Cordova, Valdez, Seward, Seldovia, Homer and Kodiak. The ship has 4,000 tons of vital supplies aboard. It also carries some coal.

## Jap Defence Hints U.S. Suppressed Note About Negotiations

TOKYO (AP)—The defence at the international war crimes trial strongly implied in questioning today that the U.S. State Department suppressed significant memoranda on 1941 Japanese-American negotiations.

Outside the courtroom, Lt. Col. Franklin E. N. Warren of defence counsel replied to correspondents' questions:

"I would not be surprised to see another congressional investigation of the State Department regarding events prior to Pearl Harbor."

He did not elaborate.

Warren also implied by cross-examination of Joseph W. Ballantyne, special assistant to the Secretary of State, that then Secretary Cordell Hull refused to accept a report prepared by former Ambassador Joseph C. Grew. The Grew report was submitted after he had been released from a Japanese prisoner of war camp and returned to Washington.

Ballantyne said, "I know nothing of such a report."

Warren inquired if Stanley Hornbeck, Hull's adviser on Far Eastern matters, hadn't prepared a memorandum "about using a policy of economic strangulation to force Japan to do what the United States wanted"—and if it hadn't been suppressed.

"I do not recall such a memorandum," Ballantyne replied. A building permit has been issued to J. H. Cote to make alterations to an apartment building at 30 Douglas Street, costing \$8,500.

## Communists Losing

FRANKFURT (AP)—Military government officials and German politicians agreed today that the U.S.-occupied zone of Germany shows no signs of turning politically red, or even pink, in next week's elections.

In numerous elections throughout Europe during the last year, this southwestern section of Germany has stood out in bold relief as a comparative stronghold of conservatism. Communism has gained no more than a toehold in the U.S. zone. Even the mildly leftist Social Democrats ran second to the middle of the road party, which calls itself variously the "Christian Democratic Union" or "Christian Social Union."

Those who keep their fingers on the German political pulse do not expect any marked swing towards the left in the voting just ahead.

In the Nov. 24 balloting in the state of Wuerttemberg-Baden, and the Dec. 1 voting in Bavaria and Greater Hesse, Germans will adopt or reject proposed state constitutions and choose state legislatures in what may prove the seminal step in their progress toward self-government.

## Suffer Severe Burns

VANCOUVER (CP)—Jack Allen, 60-year-old caretaker, is in a hospital here today recovering from burns suffered during the rescue of several race horses from a flaming barn at the Twin Brooks farm of Bob Springer, prominent horseman, at Port Kells, B.C., 20 miles east of here. The fire caused property losses of \$10,000.

Allen rescued three horses well known to western race fans—Miss Olivia, Trust Act and Mayme S. Miss Olivia was led from the barn with her mane afire. He also brought out a brood mare, Ackford, her yearling colt, Twin Brook, and a suckling colt by Gallator, all severely burned.

The barn burned to the ground, the loss including much farm equipment.

## What They Pay in Reparations

By SHERRY BOWEN

The \$1,350,000,000 reparations bill for minor Axis powers proposed at the Paris conference lacks major importance in itself, but the distribution of the money and the pressures involved are indications of more deep-seated problems. It is notable that Russia would receive 900 million dollars for herself and that 262.5 millions would go to nations where her influence in conceded to be strong. Only 187.5 millions of the 1350 million total is assigned to nations little influenced by Russia.

In addition, the amounts have been reduced drastically from original demands, on former enemy nations. At one stage of the negotiations a bill for 20 billion dollars against Italy was proposed. At the behest of the west-

ern powers this was whittled down to 325 millions. And none of the cash settlements go to major western powers, although some of them do get payments in kind and confiscated capital.

The proposed settlements contrast sharply with World War I when Germany was handed a reparations bill of more than 60 billion dollars and there was widespread belief that Germany could be forced to pay all of the war bill.

**MUST COMPENSATE**

In this war, no value has been placed on reparations from Germany itself except the statement at the Potsdam conference that she shall be "compelled to compensate to the greatest possible extent for the loss and suffering she has caused." Even in this program the four occupying powers have discovered that capital and consumer goods taken out of Germany create severe difficulties, not only in the administration of German affairs but in world-wide economy.

Russia, for example, began a drastic program of dismantling plants inside Germany and mov-

ing them to Russia. But this program has been curtailed and many of the plants scheduled for removal are now operating within Germany under Russian supervision.

How much can a conqueror force a former enemy nation to pay without hurting the rest of the world, including the conqueror? This is the question that a survey of the proposed reparations payment asks pointedly. No one pretends that the transfer of money or goods will begin to compensate anyone for war losses. During the negotiations on Italian reparations, for example, some observers pointed out that a heavy reparations bill for Italy might force international loans under which the United States might be placed in the position of paying reparations for Italy.

This attitude is a reflection of

**Ferry Firm Asks \$10,000 Subsidy**

Beaton Navigation Company, present operator of a ferry on the Upper Arrow Lake, has asked a subsidy of \$10,000 a year on a three-year contract with the provincial government. The firm was the only company to submit a bid to the government when tenders closed Wednesday.

The subsidy asked was the same as that approved when the license was last put up to tender.

**WHAT GIVES COCOA ITS FOOD VALUE?**

The high food value of Cocoa depends almost entirely on its Cocoa Butter content.

A LEVER PRODUCT

bitter lessons, learned in World War I when Germany failed to meet her reparations bill and when most payments she did make were offset by loans from the United States. This lesson was reflected in recent American efforts to reduce reparations for her former enemies in almost every instance.

On the other hand, where reparations have been assessed, the fact that Russia is getting the major share is believed to be part of a Soviet effort to bind eastern Europe to the Russian economy. Reparations have been linked with trade agreements in interpretations of Red economic programs. It has been charged that in some instances arrangements are such that some smaller nations will be unable to trade with anyone but Russia.

Thus it appears that cash reparations proposals are straws pointing to international pressures rather than serious attempts to force payments from the Axis. In the case of Greece, for example, it was suggested the United States could and would use her influence to insure that the Greeks actually would benefit from their share of reparations. Such an attitude points to reparations as a device for international adjustments rather than as a punitive measure.

## Auto Makers Enlist Planes, Ships, Even Taxis To Fight Parts Shortage

DETROIT—A sleepy truck driver in Illinois forced the closing of one of the nation's biggest automobile plants. A riot in Bombay, India, could have done the same thing.

The automobile industry, working on the narrowest of inventories because of critical shortages in all fields, has been forced to resort to every conceivable type of transportation to move vital parts from one plant to another, to redesign parts and engineering operations, and to search the world for substitutes.

The sleepy truck driver was hauling parts from one Fisher Body plant to another. His 16-hour nap let the receiving plant production line dry up—another delay in the delivery of new automobiles. The Bombay riots interfered with shipment of bur-lap; manufacturers have been forced to buy a Mexican substitute at twice the cost.

A supplier who manufactured the small arm supporting the luggage compartment lid for General Motors couldn't get steel. Fisher Body division obtained the steel for him. Then the supplier informed them he had no rivets; the raw stock for these was located. Finally he said he needed washers. Fisher had to find additional steel for the washer manufacturer and find still another company to cut the sheet steel to needed size so the washer

company could supply the supplier who supplied Fisher. Auto makers have used planes, trucks, ships and even taxicabs to keep their plants operating. One company set up a relay "pony express" trucks which passed a trailer-load of parts from one truck and driver to another to speed the load to its destination.

Three taxicabs in Ionia, Mich., saved an Atlanta, Ga., body plant from a shutdown. The cabs rushed upholstery material from Ionia to Grand Rapids, where it was transferred to a waiting plane and air-expressed to Atlanta.

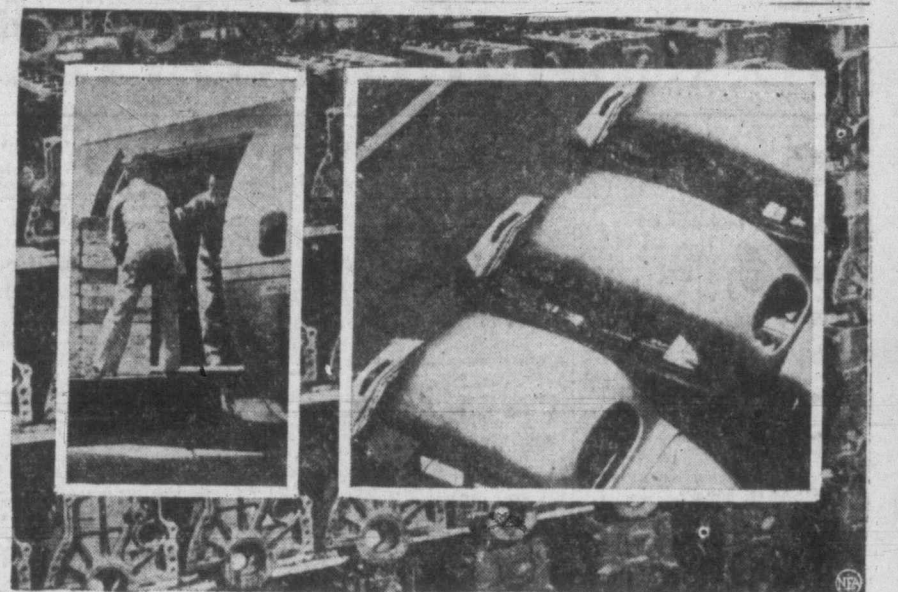

Redesigning parts and operations has helped to eliminate some of the materials in short supply, but has increased production costs considerably.

Packard retrofitted to build a

special bracket for wooden bumpers when metal bumpers became unavailable. The cost of the re-tooling, lumber, installation and later replacement of the wooden bumpers by metal ones added \$20 to the cost of each car.

Because of a cotton fabric shortage, one company was forced to substitute more expensive imitation leather. Ford spared using a synthetic rubber weather-stripping material, then had to have its research department find a new type of glue to make the synthetic rubber hold properly.

Most of the shortages are the result of strikes, many of them in the thousands of small supplier plants that help feed the big automobile production lines. In normal times, reserve stocks would be available to fill the gap but these have been depleted by war drafts. Production has been reduced to a day-to-day, sometimes even an hour-to-hour, basis.

Against a background of engine blocks awaiting parts, the auto industry is giving a big boost to air freight to speed the movement of critically short items like those being loaded into the plane at left. While cylinder blocks wait for parts, engineless bodies at right wait for steel for fenders and hoods.

## Only Foot To Spare As Warrior Eased Through Canal

BALBOA, Panama Canal Zone (CP)—Two Canadian warships weighed anchor Wednesday and sailed for Acapulco, on the southern coast of Mexico, for a rendezvous with H.M.C.S. Uganda.

One was the aircraft carrier Warrior, which eased through the Panama Canal last Saturday into the brine of Balboa Harbor for her first taste of the Pacific. The destroyer Crescent joined her Tuesday.

They will rendezvous off Acapulco next Monday with the cruiser Uganda, will carry out three days of training exercises, then head into port until Dec. 3. On Dec. 1 they will take part in ceremonies marking the inauguration of the new Mexican President, Miguel Aleman.

Behind the Warrior is an experience her sailors will long remember. She squeezed through the canal from the Atlantic with only a foot of beam to spare in the deepest of the locks. Once through, she found herself harboring with two 45,000-ton United States navy giants, the battleship Wisconsin and the aircraft carrier Leyte.

Had the Warrior possessed another foot of overhang the canal passage would have been denied her. While by no means the largest vessel to use the locks, her beam is extended by out-jutting gun platforms along her sides. It is possible to remove temporarily the outer extremity of the more prominent ones but, even at that, she has a width of 109 feet. The width of the Panama locks is 110.

## Treason Trial Halted In Australia

SYDNEY (CP)—The Attorney-General's Department of New South Wales has ordered suspension of proceedings against Maj. Charles Cousens, 43-year-old Australian army officer charged with treason as a result of wartime broadcasts from Tokyo while a prisoner of the Japanese.

The charge against Cousens, taken prisoner in the fall of Singapore and transferred to a prison camp in Japan, was laid under a British law of 1951 and its hearing in the Sydney police court lasted several weeks in August and September.

Cousens was committed for trial, but New South Wales legal authorities after studying the evidence, including testimony of two Japanese witnesses, a United States intelligence officer and a United States naval officer who had been a prisoner with Cousens, decided to drop the case.

Cousens testified that when the Japanese asked him to broadcast he had requested an opportunity to commit suicide, and later had decided to go on the air, sabotage propaganda talks if possible, and slip out military information if he could.

The Daily Telegraph has suggested Cousens be reimbursed for the expense of his defence, said to have run up to \$13,000.

## Lady Grant Nominated In Aberdeen South

LONDON (CP)—Lady Grant, widow of Sir Arthur Grant of Monymusk, was nominated Wednesday as Conservative candidate for next Wednesday's Aberdeen South by-election.

The electoral battle will be a straight contest with A. J. Irvine, Labor.

Sir Douglas Thompson, Conservative, resigned the seat, where he had a majority of 2,000 over Labor in 1945.

Mr. Irvine is a former chairman of the Oxford Union. He was beaten in Twickenham in the general election of 1945 and Lady Grant lost in North Aberdeen. Her husband was killed while on war service.

## More Vitamin D for Good Nutrition

YOUNGSTERS who get plenty of Carnation Milk—drinking it, or eating it on cereals and in cooked foods—have a head start towards good nutrition. They get their full quota of milk food values. And now they get an increased amount of "sunshine" Vitamin D. For Carnation Milk is now irradiated to nearly 2½ times the vitamin D formerly supplied.

None of the usual foods we eat provide adequate amounts of vitamin D. But Irradiated Carnation Milk does supply an amount accepted as sufficient to prevent rickets and to insure good bone and tooth development in normal children.

You'll find a world of help in planning meals for children in the free book "Growing Up With Milk". Write for it, to Carnation Co. Limited, Toronto or Vancouver.

**OAK BAY**  
South of the avenue. Here is a very lovely five-room N.H.A.-built stucco house that has every modern convenience and is in beautiful condition. The large living-room, dining-room and hall have real oak floors. Delightful kitchen with the sink. Two nice-sized bedrooms. OIL-O-MATIC HEATING. Full basement has a fireplace, garage. The plumbing is copper-piped. Wired for an electric range. Coved ceilings and durable roof. You should see this home before you buy, as it is a dandy.

**\$9750**  
**FULLY FURNISHED SNAP**  
One block from the bus in Saanich. A sound frame semi-bungalow of living-room with fireplace, two bedrooms, kitchen, three-piece bathroom and sun-porch down and three very useful bedrooms upstairs. Very compact and ideal for a family. Full cemented basement with furnace. Fine large lot and separate garage. All the furniture goes and it's very good. Possession is immediate, so you can move right in. Yes, it's All for

## B.C. Censors Approve Showing 'The Outlaw'

Howard Hughes' controversial motion picture, "The Outlaw," will be shown on the screen of the Plaza and Oak Bay Theatres starting Thursday.

Sanction of the Board of Censors was "originally withheld pending review of the film by the Board of Appeal."

The board ruled, however, that children under 16 may not be admitted.

### DOMINION THEATRE

The old William Desmond Taylor home became a part of the Hollywood scene again when it served as a background recently for location shooting of Columbia's "Crime Doctor's Man Hunt," currently playing at the Dominion Theatre with Warner Baxter in the title role.

Thus, the murder scenes of Columbia's new thriller were filmed in a house that still contains the secret of the real murder mystery surrounding the death of Taylor, early-day Hollywood director.

### ROYAL THEATRE

"A Stolen Life," a Warner Bros. drama starring Bette Davis and featuring Glenn Ford, Dane Clark, Walter Brennan and Charlie Ruggles, now at the Royal Theatre.

In the new film, Miss Davis portrays her first cinematic dual role. She plays a pair of identical twins.

"A Stolen Life" was directed for Warner Bros. by Curtis Bernhardt. The screenplay was written by Catherine Turney and adapted by Margaret Buell Wilder from the novel by Karel J. Benes.

ELISSA LANDI AND ROBERT DONAT in scene from Alexandre Dumas' spectacle, "The Count of Monte Cristo," opening today at the York Theatre.

## Actor Acquires Priestley Accent

Michael Redgrave does not know J. B. Priestley, yet Priestley taught him the Yorkshire accent which he assumes for his part in "Jeannie," the film version of the famous play, which comes to the York Theatre today.

Redgrave has always been in the habit of listening to Priestley's broadcasts, and when he heard that he was to play the part of a Yorkshire man in "Jeannie," he paid special attention to Priestley's vocal idiosyncrasies and picked up an authentic accent.

J. ARTHUR RANK presents

OAK BAY, PLAZA—"The Outlaw," starring Walter Huston and Jane Russell.

RIO—Roy Rogers in "Utah."

ROYAL—Bette Davis in "A Stolen Life."

YORK—Michael Redgrave and Barbara Mullen in "Jeannie."

## Atlas Presents 'Easy To Wed'

The laugh-jammed story of a lady-killer whose amatory exploits land him with two wives furnishes a sparkling vehicle for the talents of Van Johnson, Esther Williams, Lucille Ball and Keenan Wynn in "Easy to Wed," M-G-M Technicolor musical which opened at the Atlas Theatre today.

The easy-to-look-at Miss Williams and the increasingly popular Van Johnson, who scored together in "Thrill of a Romance," again prove themselves an ideal couple, this time not only in their romantic scenes but in their first song-and-dance numbers.

## Tickets Now On Sale For Henry V Show

Tickets for "Henry V," the British film production in Technicolor, starring Laurence Olivier, go on sale Saturday at Fletcher's Music Store, Douglas Street, and at Bett's Book Shop, Oak Bay Avenue. The film, which is based on the play by Shakespeare, will commence Nov. 28 at the Oak Bay Theatre. All seats are reserved and there will be but two showings a day. "Henry V" was made at a cost of \$2,000,000 in England and Ireland during the war. Laurence Olivier, who performs in the title role, also produced and directed the film which has a cast of 37 principals and 1,000 extras. Among the stars are Leslie Banks, Robert Newton and Felix Aylmer. The role of Princess Katherine is portrayed by Renee Asherson.

### CAPITOL THEATRE

"Centennial Summer" finds Jeanne Crain and Cornel Wilde in love and waltzing to the strains of a Jerome Kern melody in 20th Century-Fox's technicolor filmization of the Albert E. Idell best-seller which is now showing at the Capitol Theatre. The film, which was produced and directed by Otto Preminger, also stars Linda Darnell, William Eythe, Walter Brennan, Constance Bennett and Dorothy Gish in its outstanding cast.

## Dorothy Dix

GIRL OF 20, LOVER OF MUSIC, NOT YET SETTLED ON A VOCATION

Dear Dorothy Dix: I am a girl 20 years old. Graduated from high school two years ago and went to work at once, but I do not seem able to get situated in a permanent job. Am on my seventh one now and don't know how long this one will last. My problem is this:

I am greatly interested in music, but have never taken it up as a career. I play the piano a little, but not too well. Should I leave my job, go to college to study music, or take a secretarial course? I know that I should have settled this question of what to do before I graduated, but, like many girls, I wanted to earn money and was eager to get started.

MARTHA  
Answer: Just because you would like to be a musician

ADULT  
ENTERTAINMENT

NO CHILDREN ADMITTED UNDER 16 YEARS

doesn't make you one, nor is it any sign that God gave you talent that would enable you to become one. Moreover, in these days when one can turn on the radio and hear great artists playing, the chance of any amateur being able to make a living as a musician, unless he or she is exceptionally gifted, is poor indeed.

### DON'T WASTE TIME

So I would not advise you to waste your time and money studying music, unless you do it just for your own pleasure. But I do urge you to make a serious attempt to find out what sort of work you are best fitted

to do and then to prepare yourself for doing that so efficiently that you can hold down a steady job, instead of being batted about from pillar to post, which gets you nowhere.

The reason so many girls have to take small salaries and never have any permanent positions is because they have not thought it worth while to prepare themselves for the work they are undertaking. If they are stenographers, they don't know how to take dictation, or spell, or write a decent letter. If they are bookkeepers, they make mistakes in their accounts. If they are clerks, they

don't know their stock, or have any selling technique. They only hold their jobs in an emergency and are fired as soon as a more competent person comes along.

There is always a good place and good pay for good workers. Make yourself one.

### \$104,039 Overpaid Tax

WASHINGTON (AP)—Comedian Eddie Cantor and his wife, Ida, have been granted refunds of \$52,280 and \$51,759, respectively, for overpayment of 1945 income tax, the Internal Revenue Bureau announced Wednesday.
